

Vidant Beaufort Hospital's 2012 Community Health Needs Assessment

Why Assess Our Community's Needs?

Every four years, health departments across North Carolina, including Beaufort County Health Department, are required to conduct a community health assessment. The purpose of the assessment is to look at the county's true and perceived health needs and available resources. These results will aid in determining health priorities for the upcoming four years.

While every effort was made to include resources from a wide variety of disciplines, we acknowledge some areas may have been overlooked.

Please contact Kelli Russell at (252) 940-6528 or kelli.russell@bchd.net for inclusion in upcoming reports.

THE INFORMATION CONTAINED IN THIS DOCUMENT IS ACCURATE AS OF JULY 2011.

Section II

The Assessment Process

Beaufort County Health Department and the Community Partners listed in Section I have teamed together for numerous years to produce a Community Health Assessment (CHA) every four years. For the 2011 CHA, team members were recruited from various agencies in January 2011.

The team first met February 15, 2011 to review the purpose of CHA's, review the 2007 CHA, and review the timeline of our project. Team members can be found on page four.

On March 14, 2011, the team assembled to design and edit the Community Opinion Survey that would be used to gather secondary data. Once the group decided on the final draft, copies were printed and distributed for team members to begin collecting data. Survey dates ran from April 9, 2011 to May 18, 2011. Of the 1,100 surveys gathered, 52 surveys were omitted, as some were incomplete or were not from Beaufort County residents. Results of the survey can be found beginning on page 49.

The team met on May 17, 2011 to collect completed surveys, discuss progress, discuss data input and which data should be analyzed.

On July 12, 2011, team members met to review the primary draft of the CHA, including secondary survey data. Numerous edits were made to make the document easier to understand.

The team assembled August 16, 2011 to review primary data. A review was completed on the way secondary data would be shared and edits were made to the draft Community Health Assessment document. New and emerging issues that affect Beaufort County residents health were discussed.

On October 17, 2011, members from the Beaufort County Resource Connection, which recently merged membership with the Beaufort County Human Services Coalition, met and received a presentation on all data gathered. The group, which consists of key leaders in our community, were asked to prioritize the top ten health concerns based on the information they received through the presentation. The group determined the top ten issues to be:

1. Mental Health Issues
2. Child Care and Parenting
3. Weight Management
4. Obesity
5. Domestic Violence
6. Elder Care
7. Preparing for Emergencies and Disasters
8. Teen Pregnancy Prevention
9. Cancer
10. Transportation

The following day, October 18, 2011, the same presentation was given to members of the Community Health Assessment Team. The group participated in discussion about the top ten priority areas chosen by the key leaders. The team decided that based on the actual need, the survey responses, and the prioritized list, that the top five areas of concern to be recommended to Beaufort County Health Department's Management Team should be:

1. Cancer
2. Chronic Disease
3. Weight Management and Obesity
4. Mental Health Issues
5. Preparing for Emergencies and Disasters

Beaufort County Health Department's Management Team met October 27, 2011. The team decided that the areas of concern which will be the main focus for upcoming years are:

1. **Chronic Disease**
2. **Weight Management and Obesity**
3. **Cancer**

Below: Reviewing the draft CHA at the August 18th meeting.

SURVEY LOCATIONS

- ◆ Agape Medical Center
- ◆ Beaufort County Children's Summit
- ◆ Beaufort County Health Department

- ◆ Piggly Wiggly- Aurora
- ◆ Sheriff's Office
- ◆ St. John Housing
- ◆ Wal-Mart
- ◆ Washington Pediatrics
- ◆ Washington Waterfront
- ◆ WIC Office

These locations throughout Beaufort County are where the surveys were administered to collect the primary data found within this document. Different members of the CHA team took surveys to their places of business for community members to have the opportunity to complete. Additionally, members of the team went to various locations throughout the county and asked citizens to take the time to fill out the survey. As the completed surveys were collected, the information found in them was entered into a computer database program called *Epi-Info*. After all the information was entered, members of the CHA team

began sorting through the data to report the findings. For every 100 surveys that were entered into *Epi-Info*, a report with the demographical information was ran. The demographical information collected on the surveys was compared to Beaufort County, this was done in an effort to make sure that each population was accurately represented in the opinions of the surveys. The data that was found can be found in the Community Opinion Survey Results section.

HISTORIC INFORMATION

In 1696 Bath County was formed in Eastern North Carolina. By 1705 Bath County had been divided into three precincts, Pamtecough, Wickham, and Archdale. By 1712 the precincts were considered populous enough to become counties. Pamtecough became Beaufort, Wickham became Hyde, and Archdale became Craven. Beaufort County would come to include towns such as, Aurora, Bath, Belhaven, Chocowinity, Pantego, and Washington. Beaufort County has a rich historical past with each town boasting a bit of history all their own.

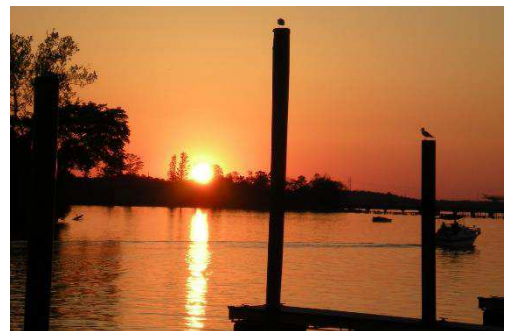

The settlement of Washington was laid out in 1775 by Colonel James Bonner. Washington was named after the first president of the United States, General George Washington. This is the reason that Washington is known as the “Original Washington.” Washington bears the scars of the Civil War in a downtown home that still holds a cannonball shot by a Confederate ship. Despite war and two fires that destroyed much of the town Washington has persevered and thrived to become what we know and love today. Washington is now home to much of the industry, recreation and population that are located in Beaufort County.

Beaufort County has the privilege of being home to North Carolina’s oldest town, Bath. Officially founded in 1705, Bath was the first port of entry into N.C. In its early years the streets and docks of Bath were buzzing with everyone from Royal Governors to Pirates. Edward Teach better known as Blackbeard was said to have married a local and settled for a while in Bath. Today Bath is home to several historic sites such as the Palmer-Marsh House, and the Bonner House.

Aurora, founded in 1880 is the youngest town in Beaufort County. Aurora is most known for its geological history. Numerous items that can attest to this can be seen at the Aurora Fossil Museum. In fact everything from the jaw of a Giant Megatoothed shark to the skull of a whale and walrus can be seen here. Aurora is also home to one of the largest phosphate mines in the world, PCS. PCS also serves as one of the largest employers in Beaufort County.

Belhaven was once known as a busy industrial town that was home to several lumber companies and a branch of the Norfolk Southern Railroad. The vice-president of Norfolk Southern even made his home in Belhaven, River Forest Manor. The house is still standing today and serves as an inn, restaurant and marina. Eighteen shipwrecks have been identified by the North Carolina State Historic Preservation office at the Belhaven waterfront.

Beaufort County is now home to more than 46,000 residents. No matter what part of Beaufort County that you’re in, you are sure to see a beautiful setting that blends the old with the new. The past the present and the future all work together to create the place that so many love and enjoy.

Employment

Beaufort County's economy is fortunate to have a mixture of small business, retail, sales and office, production, manufacturing, transportation, material moving, agriculture and tourism opportunities.

One of the largest assets to Beaufort County is PotashCorp in Aurora. The population of Aurora is well under 1000, yet Aurora is home to the largest vertically integrated phosphate mine and chemical facility in the world. As of 2011, there were over 1,100 people working at PotashCorp in Aurora. Beaufort County has strong manufacturing businesses that include Flanders Filters, Impressions Marketing Group, Couer Medical, Inc., Carver Machine Works, Caron Incorporated and more. Second to PotashCorp, regarding employment in the County, is Beaufort County Schools followed by our medical facility Beaufort Regional Health Systems (now University Health Systems-Beaufort Hospital).

According to Farm Service Agency Beaufort County has approximately 369 working farms in Beaufort County as of Fall 2011.

Another large supplier of jobs is Beaufort County Government. According to the Human Relations department of the county, there are 305 employees as of Spring 2007. Of these, 277 are considered to be permanent full time employees. The remaining 28 employees are considered to be permanent part time. EDIT—when hear back from Deloris!

Programs for Caregivers of Children

Program Description	Time
<p>Baby Basics Newborn Care A four-week, evidence-informed parent education series designed to increase parent/primary caregiver knowledge of how to care for a baby (0-4 months).</p>	Offered twice yearly. Registration required
<p>Baby Steps A fun, educational and supportive playgroup for parents/caregivers with children newborn to 13 months of age. Currently offered one time per month, participants guide their child in exploring developmentally appropriate activities while learning helpful parenting/caretaking techniques. Participants will also have the opportunity to meet and share information with other caregivers in a supportive environment.</p>	Registration required
<p>Beyond Baby Basics A 3-hour, evidenced-informed training session designed to move parent/primary caregiver knowledge beyond the focus of newborn care to caring for a baby 5-12 months of age.</p>	Offered twice yearly. Registration required
<p>Breast Pump Loaner Program Hospital grade breast pumps are loaned, free of charge, on a first-come, first-served basis to Beaufort and Hyde County residents who do not qualify for the WIC assistance program.</p>	Ongoing
<p>Buckle Up Kids Beaufort County Beaufort County's involvement with a national "Safe Kids" initiative to provide education to parents/primary caregivers on the proper child safety seat needed for their child's age/height/weight. First-time participants who meet eligibility requirements may qualify for a child safety seat at a reduced rate and will receive child passenger safety installation training at the seat is installed. Already installed child safety seats (car carriers, convertible car seats, and booster seats) can also be checked by a trained technician to ensure they are installed correctly.</p>	Ongoing
<p>Child Care Referrals Finding child care can be a difficult, time consuming task. Making one phone call to Child Connections will allow individuals seeking child care to learn which legally operating child care or preschool facilities have openings, what questions to ask when seeking high quality child care, and what to look for in a high quality, early learning environment.</p>	Ongoing
<p>Connect the Tots A fun, educational, supportive playgroup for parents/primary caregivers with preschool-aged children. This weekly activity provides an opportunity for children to hear stories, create artwork, sing, play and have snack time with their peers. Parents/primary caregivers have the opportunity to meet and share information with other caregivers in a supportive environment.</p>	For more information call
<p>Lending Library A twist on the regular public library, the "lending library" offers a variety of developmentally appropriate toys, books, and early educator resource materials designed to help parents and caregivers maximize their child's development from infancy through age 5.</p>	Ongoing Registration required
<p>Parents as Teachers An evidenced-based, home visitation program designed for pregnant women and families with children newborn to 5 years of age. Certified parent educators teach parents how to maximize their child's development and assist them with accessing necessary resources to support overall child and family well being.</p>	Ongoing Registration required
<p>Terrific Toddling Toddlers A 3-hour, evidenced-informed training session designed to move parent/primary caregiver knowledge beyond infancy to caring for a toddler 13-24 months of age.</p>	Offered twice yearly. Registration required

<p>Terrific Toddling Toddlers</p> <p>A 3-hour, evidenced-informed training session designed to move parent/primary caregiver knowledge beyond infancy to caring for a toddler 13-24 months of age.</p>	<p>Offered twice yearly. Registration required</p>
<p>Terrific Twos and Threes</p> <p>A 3-hour, evidenced-informed training session designed to enhance parent/primary caregiver knowledge of how to care for a child two or three years of age.</p>	<p>Offered twice yearly. Registration required</p>
<p>Toddler Time</p> <p>A fun, educational and supportive playgroup for parents/caregivers with children 14 to 24 months of age. Currently offered one time per month, participants guide their child in exploring developmentally appropriate activities while learning helpful parenting/caretaking techniques. Participants will also have the opportunity to meet and share information with other caregivers in a supportive environment.</p>	<p>Registration required</p>
<p>The Incredible Years</p> <p>A 14-week, evidenced-based parent/primary caregiver skill building opportunity with a focus on caring for preschool-aged children. This parent education series is instructed in English and Spanish.</p>	<p>Offered twice yearly. Registration required</p>
<p>Welcome Baby Bags</p> <p>An outreach initiative aimed at providing pregnant women residing in Beaufort or Hyde Counties with items and information related to searching for child care, building literacy skills in young children, information on bonding with baby, safe sleep and a variety of other important topics to promote healthy development.</p>	<p>Ongoing</p>

Beaufort County Health Department Services

Description of Service

Breast & Cervical Cancer Control Program (BCCCP)

Cancer screenings are provided for low income women ages 50 to 64 who do not have Medicare Part B or Medicaid and who meet qualifying income criteria. Those seen for BCCCP will receive a pap smear, clinical breast exam, basic laboratory tests, and will be referred for a mammogram.

Child Service Coordination

Care coordination services are provided for eligible children who are at risk for or diagnosed with special needs. The program provides families with the opportunity to meet their maximum potential. A social worker works to identify and provide access to support services for children and their families through collaboration with other agencies. At risk children are eligible for services from birth to age 3. Children with diagnosed special needs are eligible from birth to age 5.

Emergency Preparedness

The Preparedness Coordinator works with community partners and the Health Director to develop an all-hazards emergency public health preparedness plan. During times of an emergency, Red Cross designated shelters may be opened by Beaufort County Emergency Management. Our Public Health Nurses are assigned to work in the designated Red Cross shelters. The Health Director and/or Preparedness Coordinator work in the county's Emergency Operations Center (EOC) to assist with carrying out the county's Emergency Plans.

Environmental Health

- On-site wastewater permits
 - Pool program
- Inspection and grading for food, lodging, and institutions
 - Inspection of tattoo parlors
 - Childhood lead program
 - Water samples
- Methamphetamine lab reoccupancy compliance
 - Well permits

Health Education and Promotion

Community education is provided to empower individuals to live healthier lifestyles.

Immunizations

Immunizations are given in order to prevent and control the spread of communicable disease. Immunizations are provided to children and adults on a walk-in basis. Required childhood immunizations are provided free of charge for all children. Charges for adult immunizations may vary based upon the vaccine requested.

Laboratory Services

Beaufort County Health Department's laboratory provides lab testing for all clinic programs. Laboratory tests provided to the general public are blood glucose screenings for non-diabetic patients, blood lead level testing for children less than 6 years of age, and sickle cell testing. These tests are offered Thursdays and Fridays 8:00am to 12:30pm and 1:00pm to 4:00pm by appointment.

Maternity Care Coordination

Case management, which includes counseling and support, is offered to pregnant women with Medicaid. A social worker follows clients during the prenatal and postpartum period, working to address issues such as financial concerns, transportation needs, and housing.

Pregnancy Testing

Pregnancy testing is offered Monday through Friday, 8:00am to 4:30pm by appointment. The visit includes lab work, results counseling, and referrals as needed.

<p>Prenatal Care</p> <p>Comprehensive prenatal care and support services are provided by our maternal health staff, which includes a Certified Nurse Midwife and a Women's Health Nurse Practitioner. Our goal is a healthy pregnancy client for each client and their baby.</p>
<p>RESPECT</p> <p>RESPECT involves two one on one counseling sessions designed to help you identify ways to reduce your risk of getting or transmitting HIV or other STD's. Participants who complete both sessions will be given an incentive.</p>
<p>STI's & HIV</p> <p>Free and confidential testing for sexually transmitted infections (STI's) and HIV is provided with an appointment.</p>
<p>Tuberculosis Control</p> <p>The Beaufort County Health Department provides diagnosis, treatment, and follow up for anyone with active tuberculosis at no charge to the client. Tuberculin skin tests are available to the general public for a fee.</p>
<p>Women, Infants & Children Supplemental Nutrition (WIC)</p> <p>WIC is a Special Supplemental Nutrition program for women who are pregnant, are breastfeeding until the baby is 12 months old, or had a baby in the past 6 months, as well as for infants and children up to 5 years old. WIC offers healthy foods, nutrition information, breastfeeding education, and counseling and referrals to other resources. You must meet the income guidelines and have a health risk to be eligible for WIC services.</p>
<p>Women's Preventative Health/Family Planning</p> <p>Counseling, education, preventive health physical exams, basic laboratory tests, and various methods of birth control are provided for women in their childbearing years.</p>
<p>Beaufort County Health Department is located at 1436 Highland Drive Washington, NC 27889 www.bchd.net Call 252-946-1902 for appointments or questions</p>

Additional Resources	<p>Carolina Pregnancy Center</p> <p>Serves pregnant women in Beaufort County by offering prenatal parenting classes, maternity clothes, baby clothes and other baby care related items.</p>	<p>1312 John Small Ave.</p> <p>Washington</p>	<p>252-946-8040</p>
	<p>Child Connections</p> <p>Child care.</p>	<p>979 Washington Square Mall</p> <p>Washington</p>	<p>252-975-4647</p>
	<p>Beaufort/Hyde Partnership for Children</p> <p>Early Childhood Issues/Education</p>	<p>979 Washington Square Mall</p>	<p>252-975-4647</p>
	<p>East Carolina Behavioral Health</p> <p>Works in partnership with people who face significant challenges related to substance abuse, mental illness, and/or developmental disability. Our commitment is to provide consistently excellent, person-centered, family-oriented services within a recovery based system that is flexible, accessible, and respects the individual's freedom of choice.</p>		<p>1-277-685-2415</p>
	<p>Beaufort County Department of Social Services</p> <p>A series of foster and adoptive parent training classes two to three times each year.</p>	<p>632 West 5th St.</p> <p>Washington</p>	<p>252-975-5500</p>

UNIVERSITY HEALTH SYSTEMS

Beaufort Hospital & Pungo Hospital

University Health Systems Beaufort Hospital joined the Greenville-based University Health Systems family on September 1, 2011. The hospital is a 142-bed acute healthcare facility with an active medical staff of over 50 physicians, representing over 30 specialties. University Health Systems has committed to spend \$21 million on capital improvements to the local hospital during the first five years of the agreement. Those funds will bring the hospital online with HealthSpan, the comprehensive medical record system used by UHS, and other capital projects, such as renovation of the Marion L. Shepard Cancer Center and expansion of the emergency department.

Basic Hospital Services

Medical
Surgical
Pediatrics
Intensive Care
Women's
Emergency

Marion L. Shepard Cancer Center

Chemotherapy
Blood and platelet transfusions
Radiation therapy

♦ 22-bed Inpatient Behavioral Health Unit

The hospital employs nearly 650 employees. There are a wide range of employment opportunities including but not limited to nursing, radiology technology, laboratory technology, physical therapists, environmental services, dietary, medical records and other clerical and administrative positions.

Section VI

Community Opinion Survey

THE FOLLOWING ARE RESULTS FROM THE 2011 COMMUNITY OPINION SURVEY. THE SURVEY, WHICH CAN BE SEEN IN FULL IN APPENDIX A, WAS CONDUCTED THROUGHOUT BEAUFORT COUNTY APRIL 9 TO MAY 18, 2011.

1,048 BEAUFORT COUNTY RESIDENTS COMPLETED THE SURVEY.

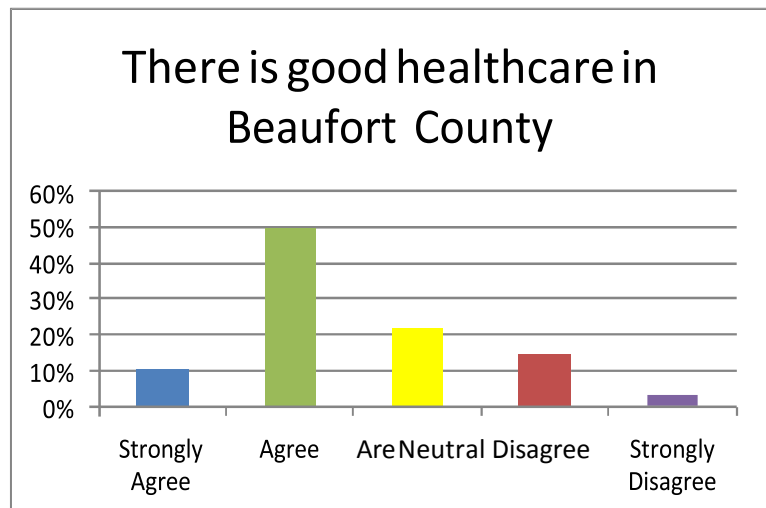

FOR A LIST OF SURVEY LOCATIONS, SEE PAGE EIGHT.

Question 1

There is good healthcare in Beaufort County

Question one of the 2011 Community Opinion Survey asked participants to choose if they strongly agree, agree, are neutral, disagree or strongly disagree with the following statement: *“There is good healthcare in Beaufort County.”*

According to survey results, 61% of respondents reported good healthcare in Beaufort County. In comparison, 17% did not agree good healthcare exists in Beaufort County.

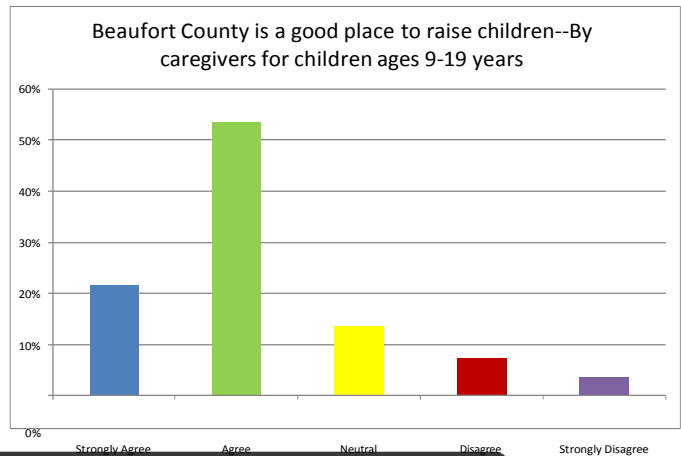

Question 2

Beaufort County is a good place to raise children

Question two of the 2011 Community Opinion Survey asked participants to tell if they strongly agree, agree, are neutral, disagree or strongly disagree with the following statement: *“Beaufort County is a good place to raise children.”*

The chart to the right shows the opinion of survey participants who are caregivers to children between the ages of 9 and 19 years.

In 2009, 11.5% of Beaufort County’s population were between the ages of 10 and 19 years.

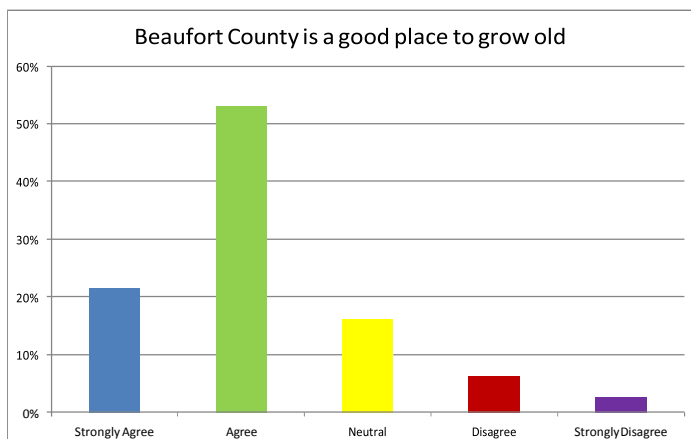

Most respondents agree that Beau/ort County is a good place to raise children and grow old.

Question 3

Beaufort County is a good place to grow old

Question three asked participants to tell if they strongly agree, agree, are neutral, disagree or strongly disagree with the following statement: *“Beaufort County is a good place to grow old.”*

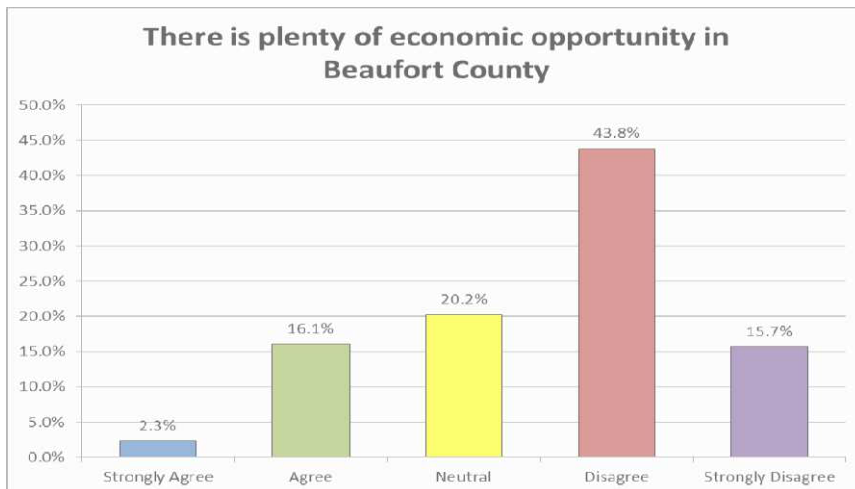

The chart to the left shows that almost three-fourths of survey participants feel Beaufort County is a good place to age.

According to the US Census Bureau’s 2009 Age Estimates, 31% of Beaufort County’s residents are age 60 years and older.

Question 4

There is plenty of economic opportunity in Beaufort County

Question four of the 2011 Community Opinion Survey asked how respondents felt about the comment “*There is plenty of Economic Opportunity in Beaufort County.*” Options included Strongly Disagree, Disagree, Are Neutral, Agree and Strongly Agree.

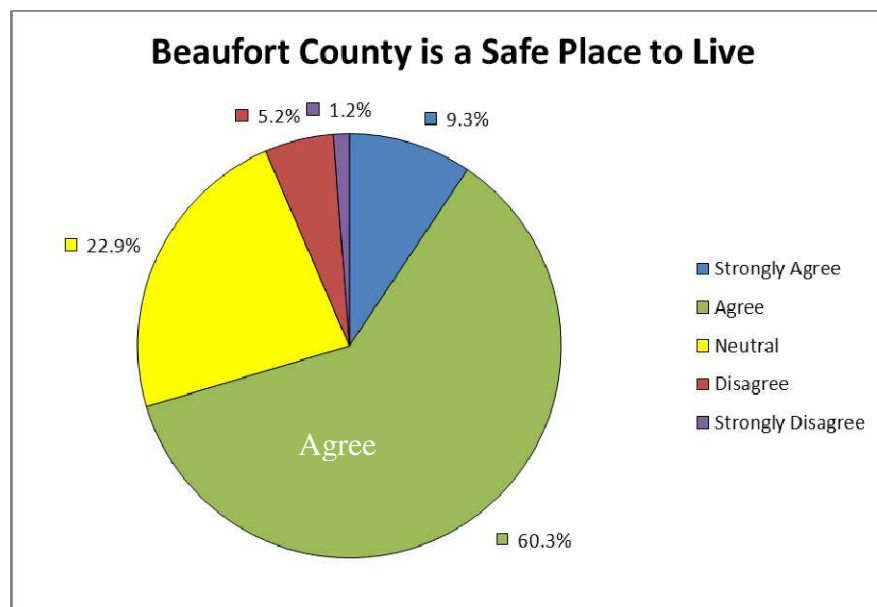

Most respondents disagree with the statement "There is plenty of economic opportunity in Beaufort County."

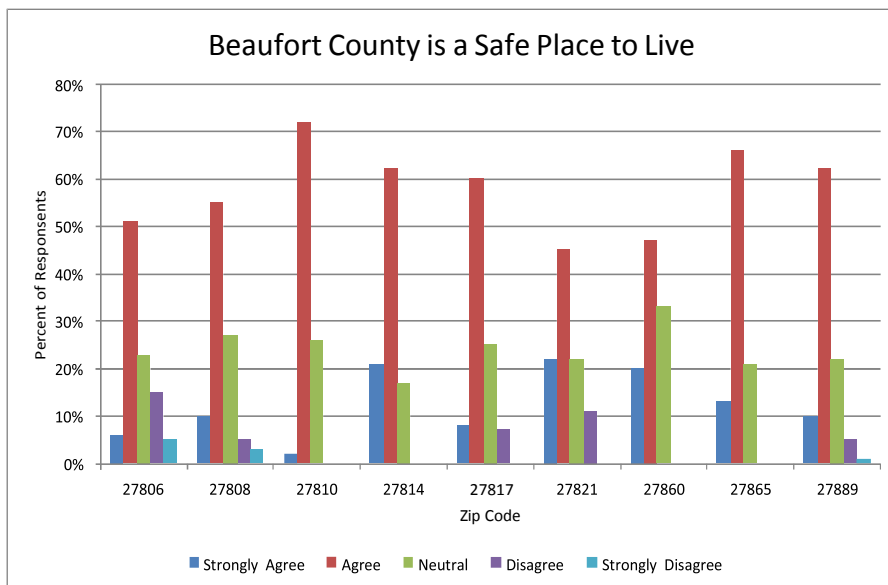

Question 5

Beaufort County is a safe place to live

Question five asked how respondents felt about the comment “*Beaufort County is a safe place to live.*” Options included Strongly Disagree, Disagree, Are Neutral, Agree and Strongly Agree.

According to survey results, more than half (60.3%) of respondents believe Beaufort County is a safe place to live. In addition, 9.3% said they strongly agreed with the statement. Only 6.4% of respondents disagreed or strongly disagreed.

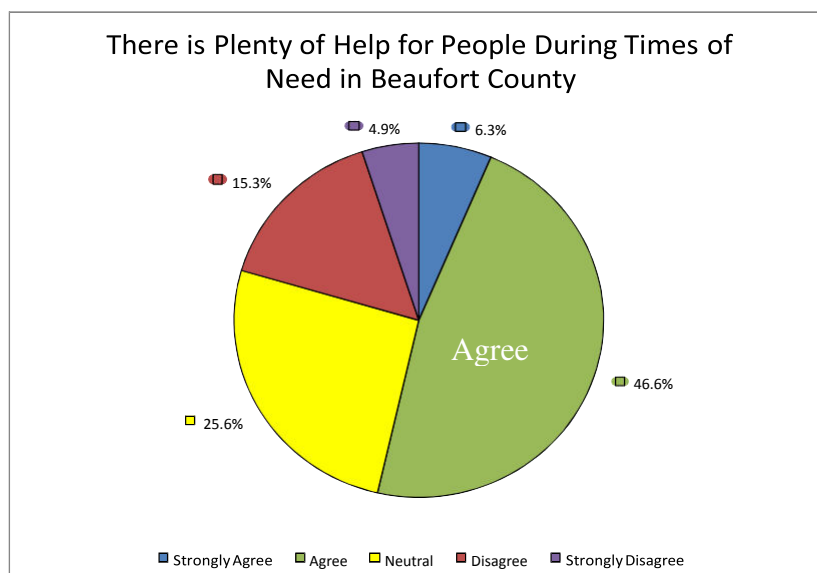

The majority of respondents in all zip codes agreed that Beaufort County is a safe place to live.

*** See page _____ for more information on Beaufort County Crime Data.

Question 6

There is plenty of help for people during times of need in Beaufort County

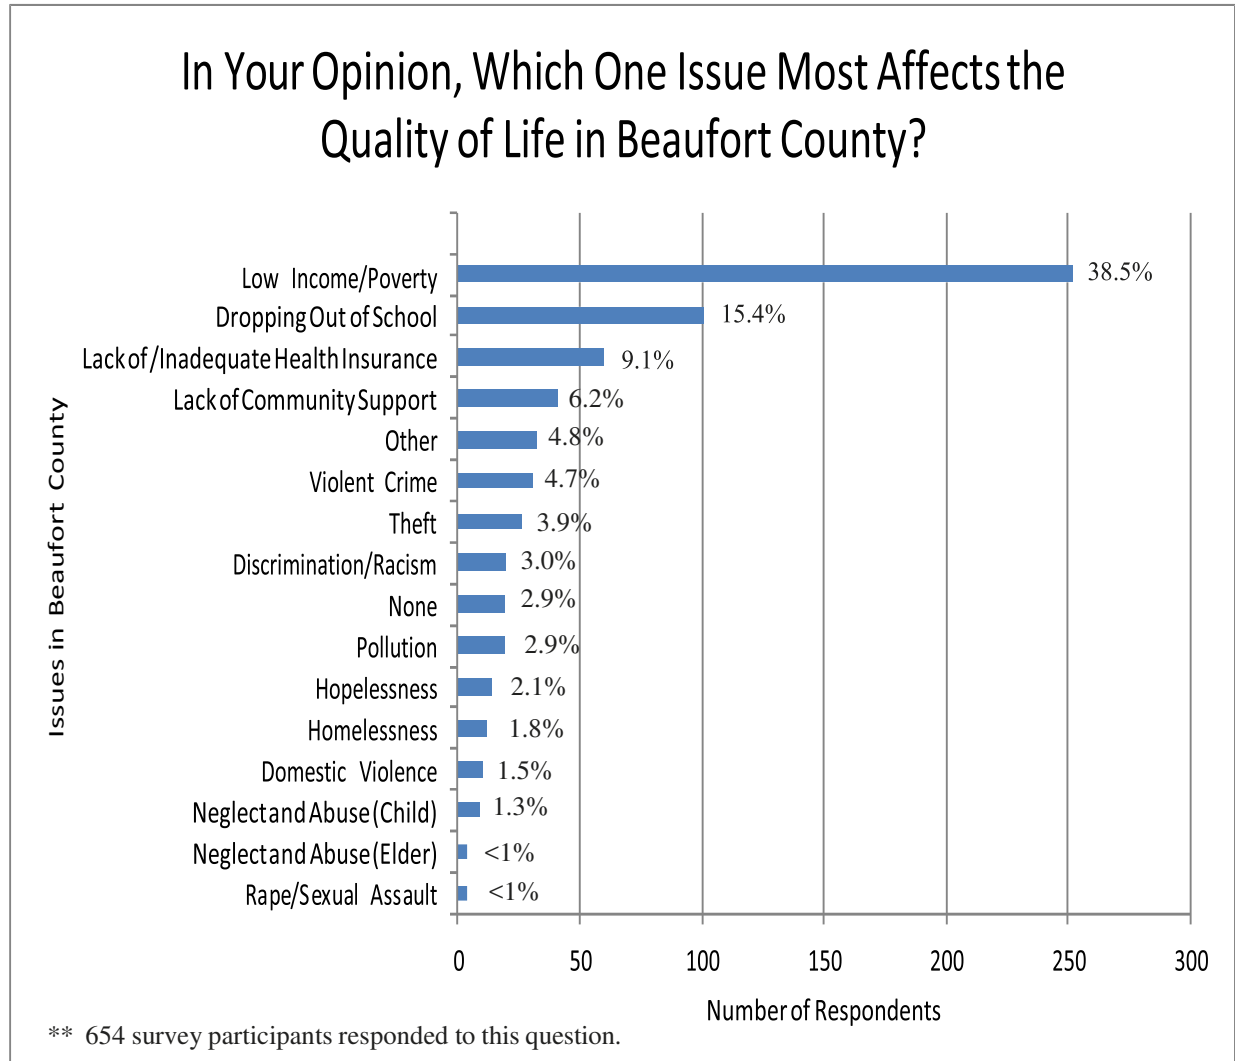

Question six asked how respondents felt about the comment “*There is plenty of help for people during times of need in Beaufort County.*” Options included Strongly Disagree, Disagree, Are Neutral, Agree and Strongly Agree.

According to the graph to the right, over half (52.9%) of surveyed residents agree or strongly agree that there is plenty of help for people during times of need in Beaufort County. However, 20.2% of those surveyed have a negative opinion and either disagree or strongly disagree with that statement while 25.6% are neutral.

Question 7

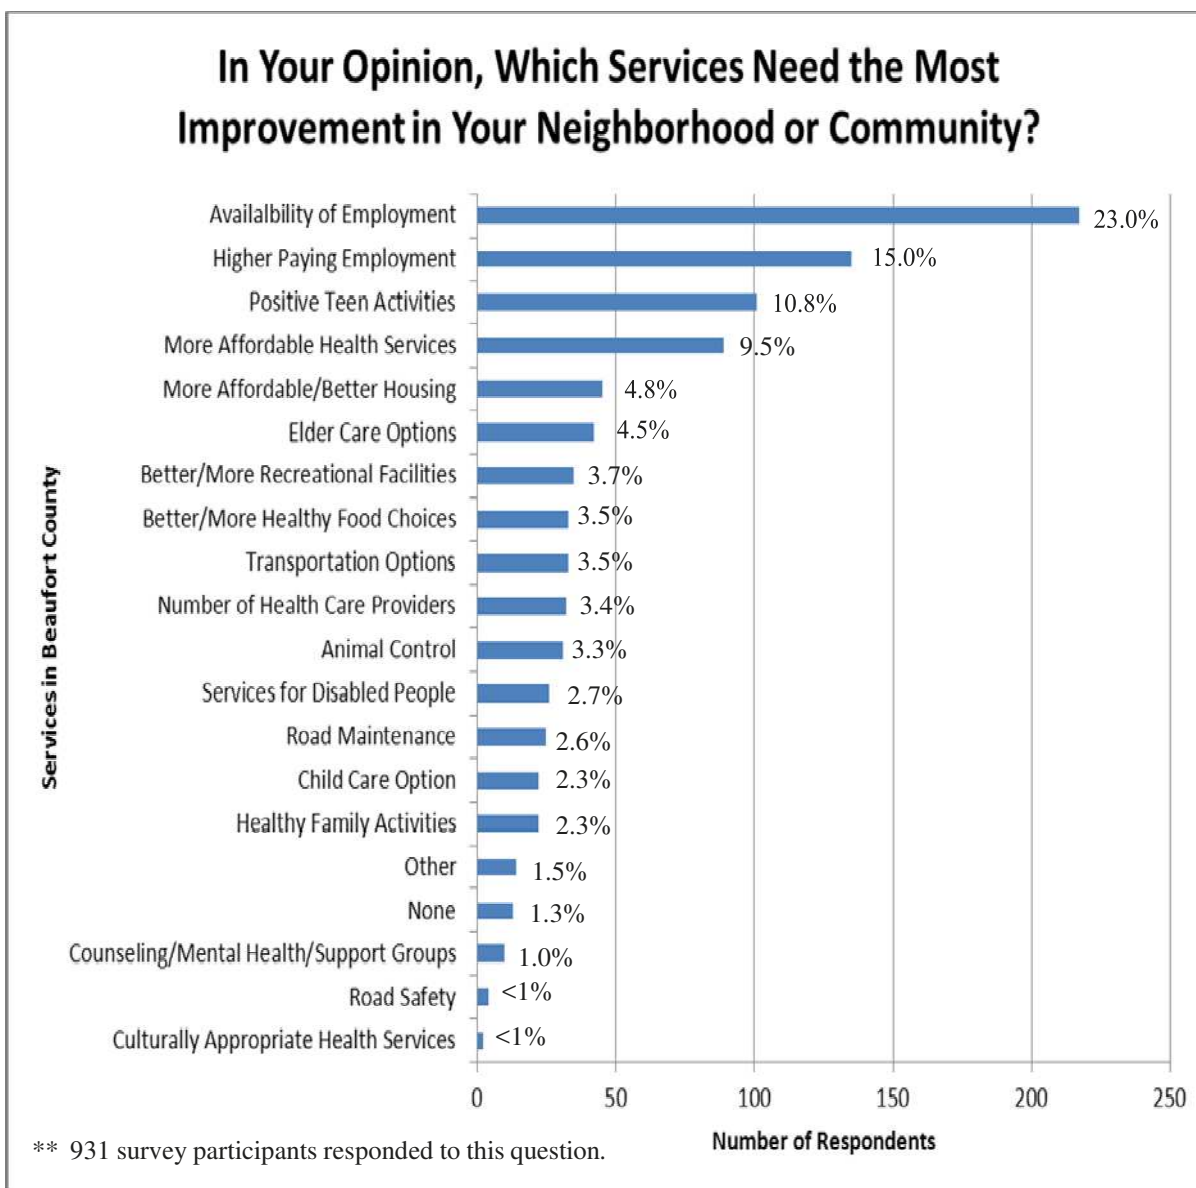

In your opinion, which one issue most affects the quality of life in Beaufort County?

According to the graph above, low income/poverty is by far the one issue that the majority of survey respondents chose that affects the quality of life in Beaufort County. Over 250 people (38.5%) selected low income/poverty as the top issue. The second issue chosen is dropping out of school (15.4%). The third issue is lack of/inadequate health insurance (9.1%). The two issues believed to least affect the quality of life are neglect and abuse towards elders and rape/sexual assault (each <1%).

Question 8

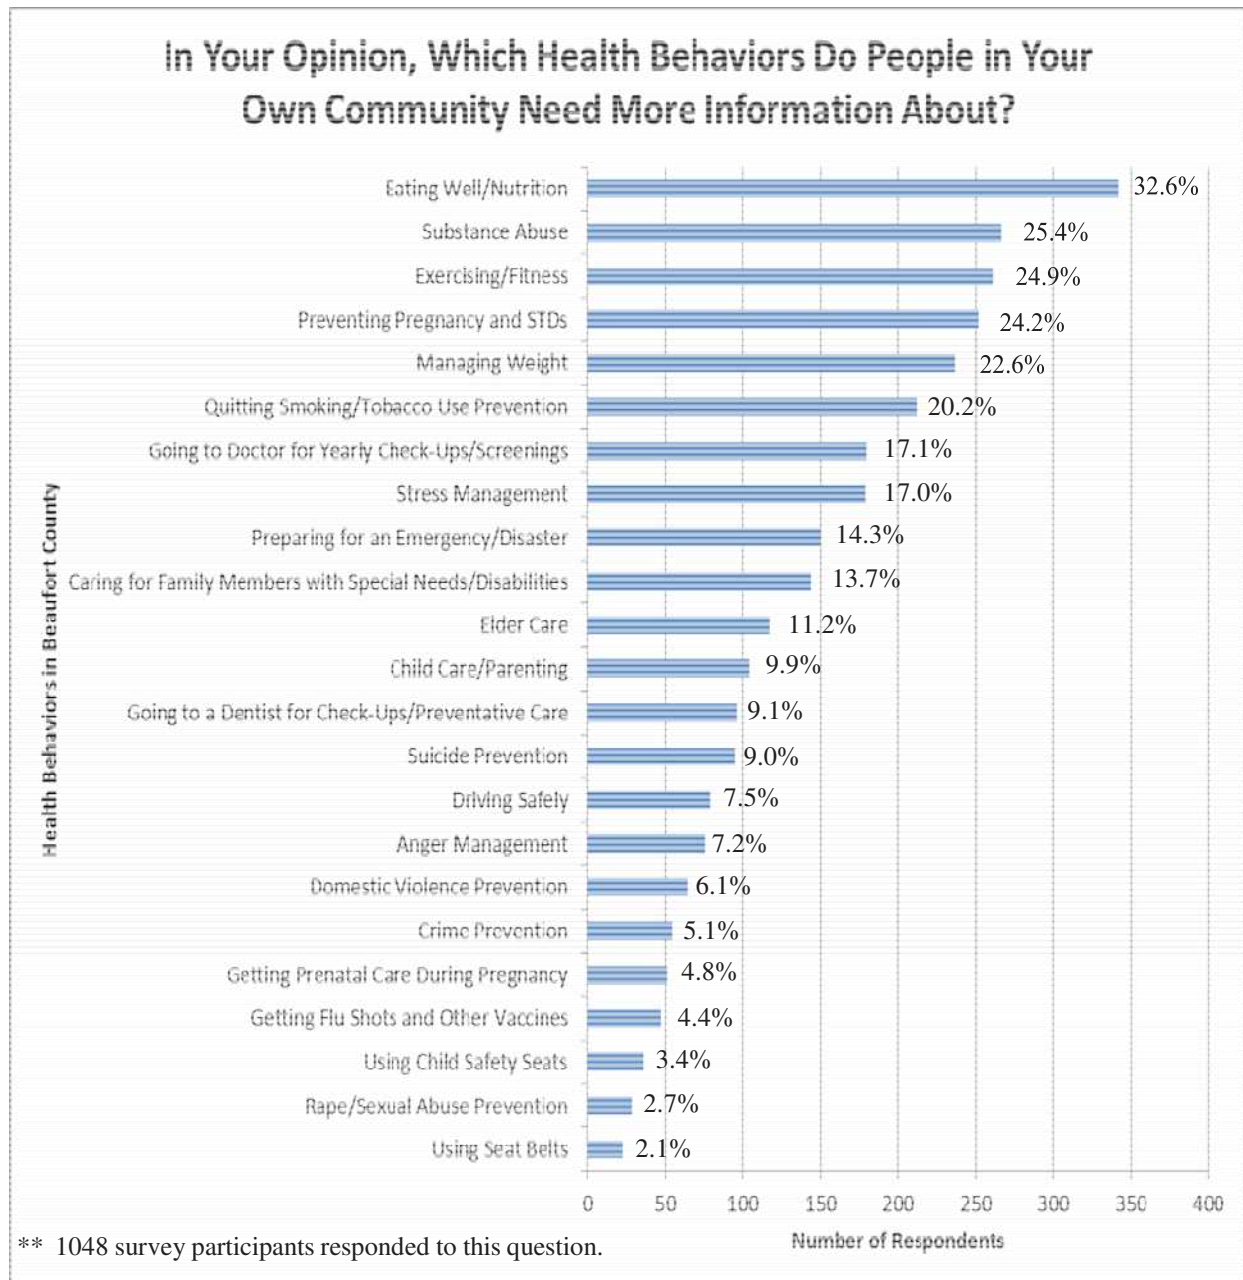

In your opinion, which services need the most improvement in your neighborhood or community?

The majority of survey respondents (217 people) reported that availability of employment was the services that needs the most improvement. The next services chosen most often was higher paying employment, with 135 selecting that response. The services selected the least were culturally appropriate health services and road safety.

Question 9

In your opinion, which health behaviors do people in your own community need more information about?

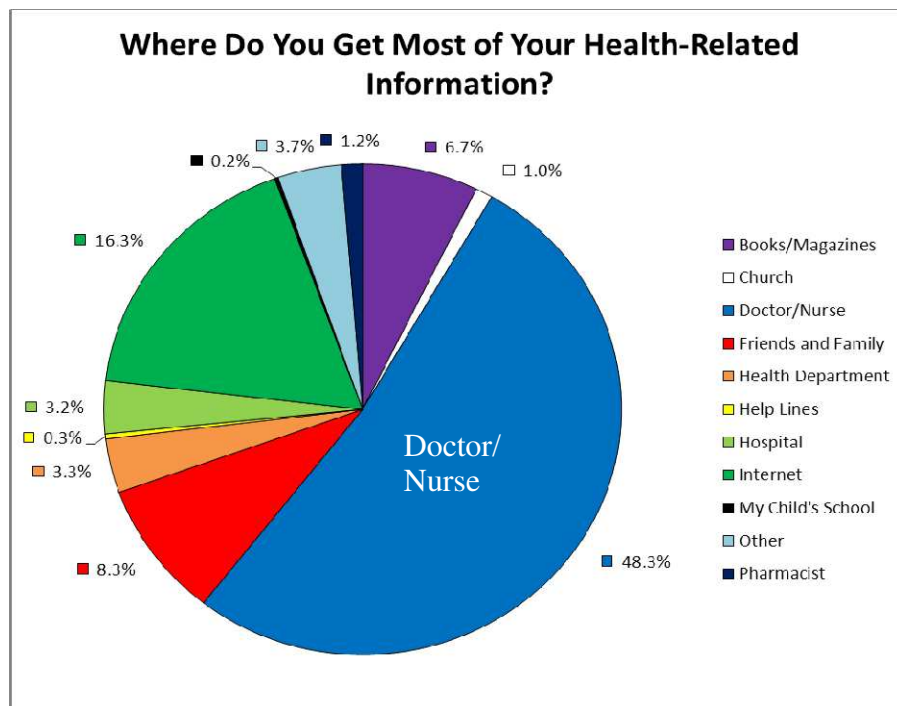

Question nine gave survey respondents the option of choosing three health behaviors they wanted members of their community to know more information about. As shown on the graph above, the majority of respondents (342 people) selected eating well/nutrition. There was also a space available on the survey for people to provide any other ideas not listed. Responses written included, but were not limited to, alcoholism, bullying, child safety, communication with the elderly, diabetes, dental health, and medication management.

Question 10

Where do you get most of your health-related information?

Question ten asked survey participants to choose the one method by which they receive most of their health-related information. Choices were doctors and nurses, pharmacists, hospitals, health departments, friends and family, church, their child's school, help lines, books and magazines, or the internet. "Other" was a choice available where methods could be listed.

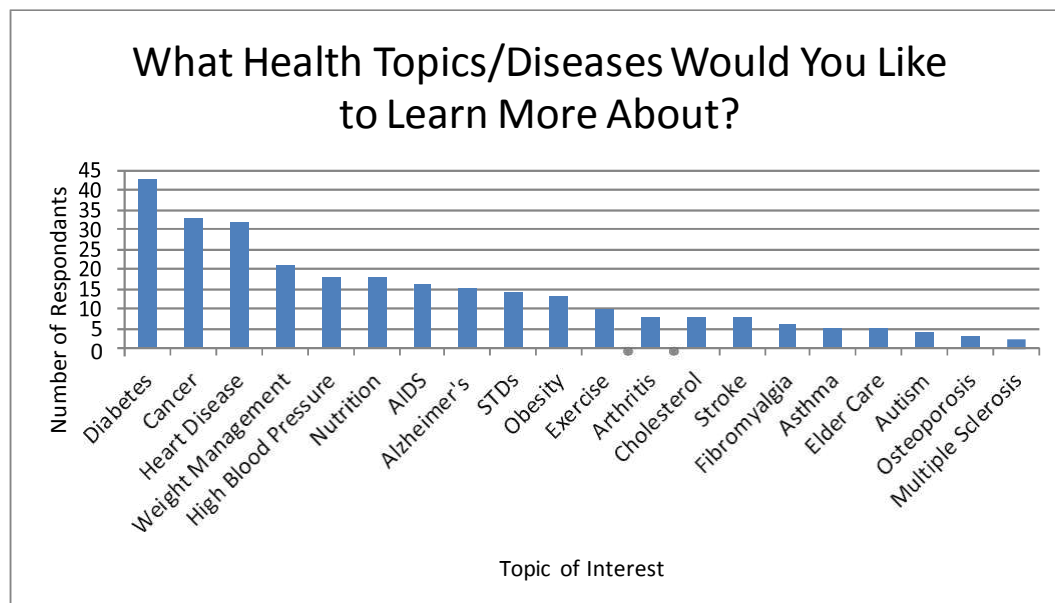

According to the graph, most of the respondents, 48.3%, get their information from a doctor or nurse. A small number also chose "other" and were given the option to list any additional methods of receiving health related information. Included among these were the television, Senior Center, mailings and Cooperative Extension.

Question 11

What health topics/diseases would you like to learn more about?

Question eleven of the 2011 Community Health Assessment Opinion Survey asked survey participants to write in suggestions of health topics and diseases they would like more information about.

More survey participants would like to know more about:

1. Diabetes
2. Cancer
3. Heart Disease

Question 12

Do you have children between the ages of 9 and 19 for which you are the caretaker?

Question twelve data has been omitted. The Community Health Assessment Partnership felt information was easily misinterpreted and would appear deceiving due to the fact data was not collected on caretakers of children between the ages of 0-8 years.

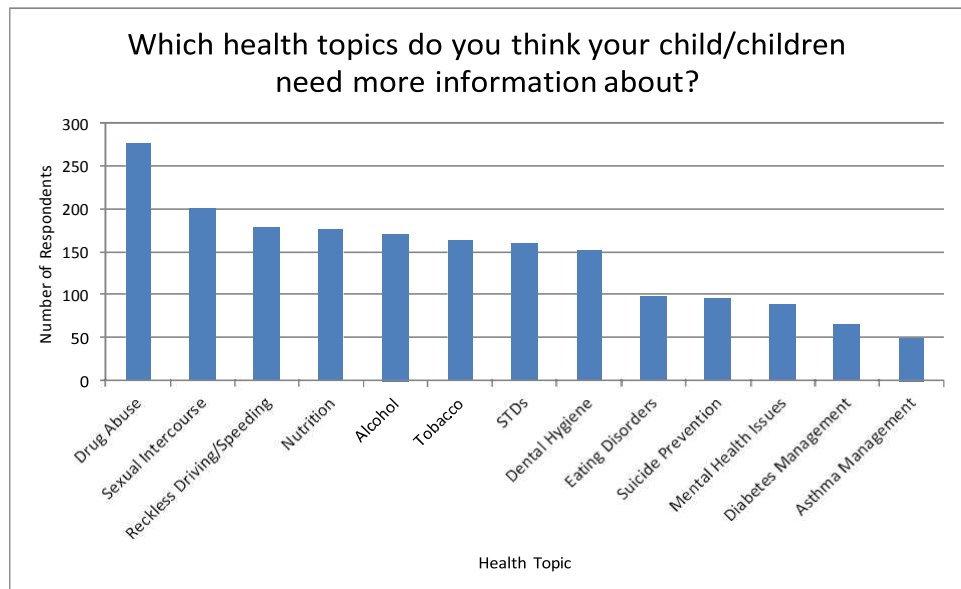

Question 13

Which of the following health topics do you think your child/children need more information about?

The results from this question reflect responses from individuals who are the caretaker of a child between the ages of 9 and 19 years.

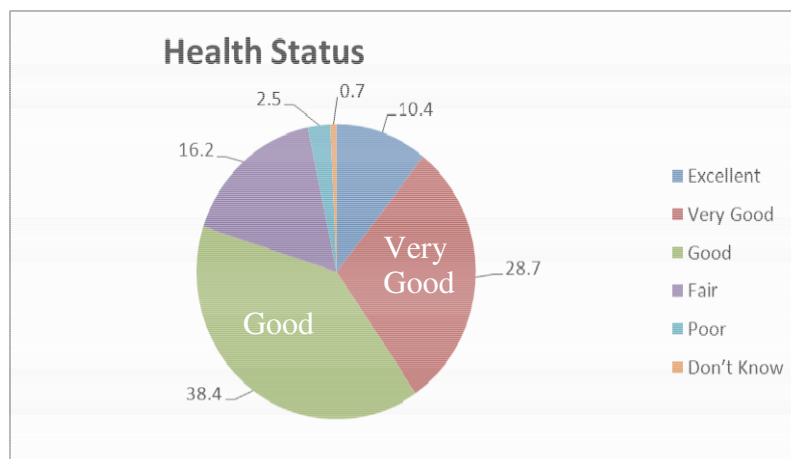

Most caretakers feel children need to know more about:

1. Drug Abuse
2. Sexual Intercourse
3. Reckless Driving/Speeding

Question 14

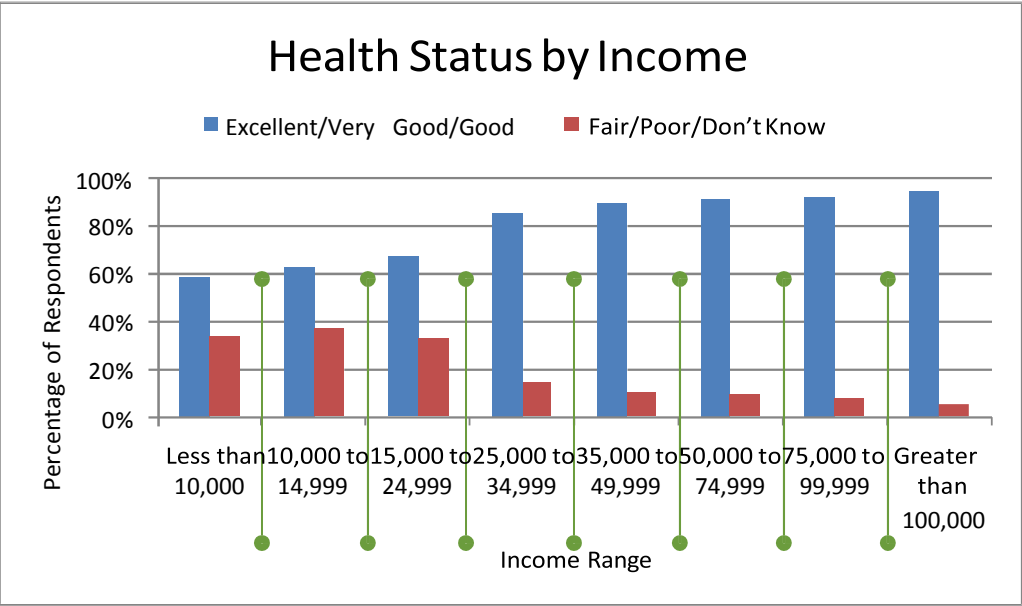

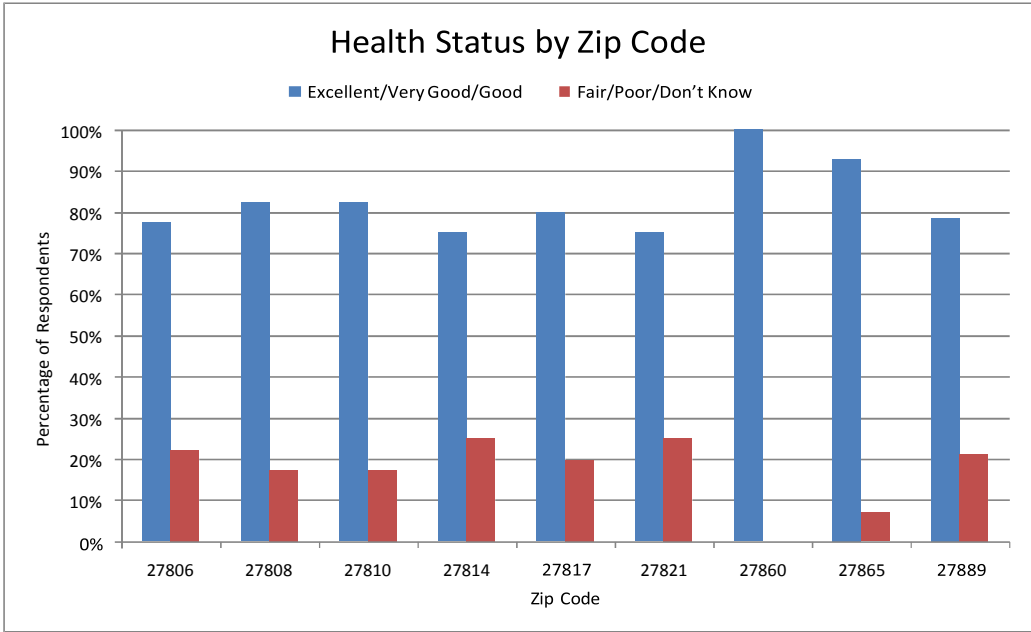

In general, your health is...

Of the 1,015 respondents, participants feel their health is...

- ◆ 10.4% — excellent
- ◆ 28.7% — very good
- ◆ 38.4% — good health
- ◆ 16.2% — fair
- ◆ 2.5% — poor health
- ◆ 0.7% — are unsure of their status

The majority of the respondents in Bath (27808), 34.1%, reported that their health status was very good. The majority of the respondents in Aurora (27806), Belhaven (27810), Blounts Creek (27814), Chocowinity (27817), Edward (27821), Pantego (27860), Pinetown (27865), and Washington (27889) reported that their health status was good.

It is perceived that lower incomes are associated with fair or poor health.

The majority of respondents who had a total household income of less than \$10,000 last year, before taxes, indicated an overall fair health status. The majority of respondents who had a total household income between \$10,000 and \$99,999 indicated an overall good health status. The majority of respondents who had a total household income of \$100,000 or more indicated a very good health status.

Question 15

Have you ever been told by a doctor, nurse or other health professional that you have any of the following health conditions?

	Yes	%
High Blood Pressure	418	39.9%
Overweight/Obesity	319	30.4%
High Cholesterol	293	27.9%
Depression or Anxiety	266	25.4%
Diabetes	169	16.1%
Asthma	122	11.6%
Osteoporosis	98	9.3%
Cancer	81	7.7%
Angina/Heart Disease	72	6.8%

The top three conditions respondents reported:

1. *High Blood Pressure*
2. *Overweight/Obesity*
3. *High Cholesterol*

The most prevalent health condition among respondents is high blood pressure followed by overweight/obesity and high cholesterol. Of the 1,047 respondents, 57 reported that they have been told by a health professional that they have one of the following health conditions, which were not listed in the survey:

- ◆ Acid Reflux
- ◆ Allergies
- ◆ Anemia
- ◆ Ankylosing Spondylitis
- ◆ Arthritis
- ◆ Atrial Fibrillation
- ◆ Attention Deficit Disorder
- ◆ Back Problems
- ◆ Bipolar Disorder
- ◆ Cataracts
- ◆ Chronic Obstructive Pulmonary Disease (COPD)
- ◆ Crohn's Disease
- ◆ Endometriosis
- ◆ Fibromyalgia
- ◆ Hepatitis C
- ◆ High Triglycerides
- ◆ Hypothyroidism
- ◆ Incontinence
- ◆ Kidney Disease
- ◆ Low Blood Pressure
- ◆ Mastocytosis
- ◆ Migraines
- ◆ Mitral Valve Prolapse
- ◆ Multiple Sclerosis (MS)
- ◆ Neuropathy
- ◆ Osteopenia
- ◆ Polymyalgia
- ◆ Reactive Airway Disease
- ◆ Tachycardia
- ◆ Underweight
- ◆ Uritis

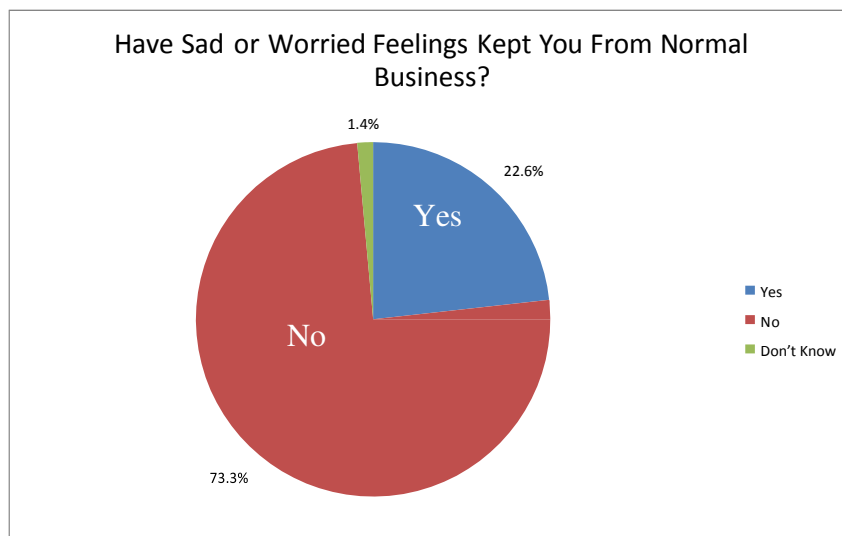

Question 16

In the past 30 days, have there been any days when feeling sad or worried kept you from going about your normal business?

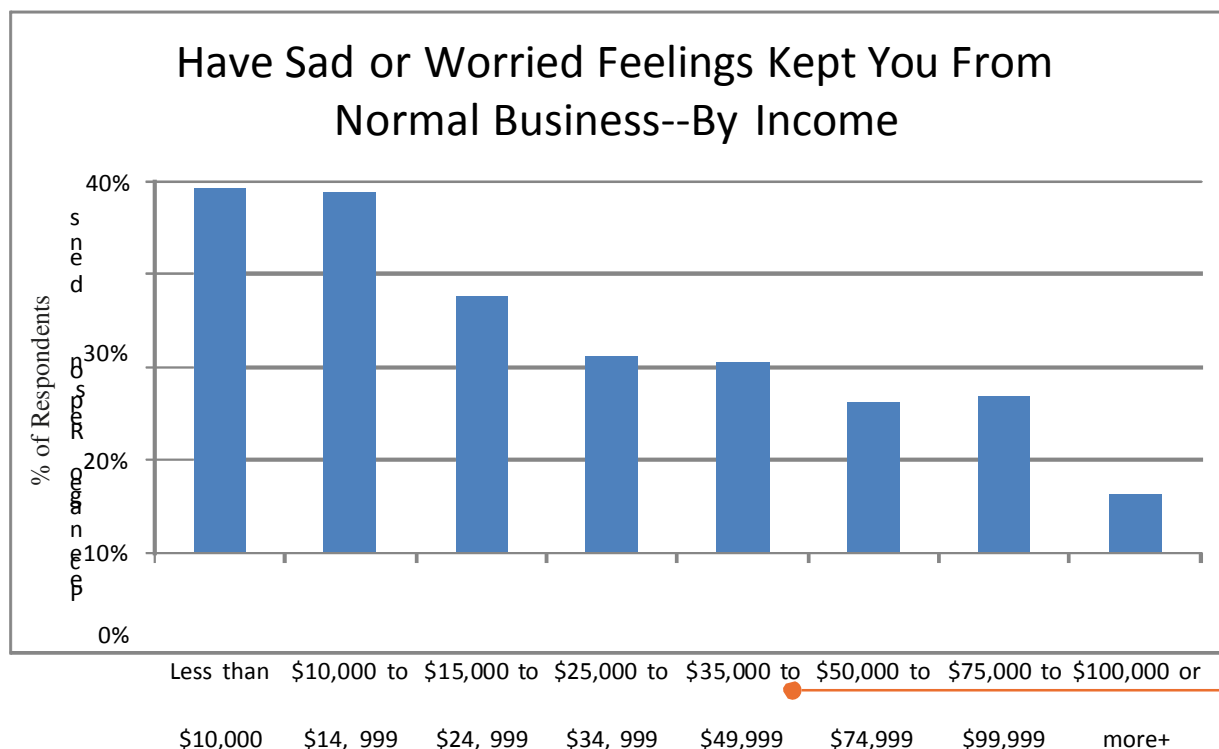

Question sixteen of the 2011 Community Health Assessment Opinion Survey asked participants if they had experienced days of sadness and worry keeping them from going about normal business over the last 30 days. Opinions for selection were “Yes”, “No”, and “Don’t Know”.

Almost one quarter of survey participants have had one or more days in the last month where feeling sad or worried has kept them from going about their normal business.

Based off the chart below, participants with higher incomes, tend to be less sad or worried.

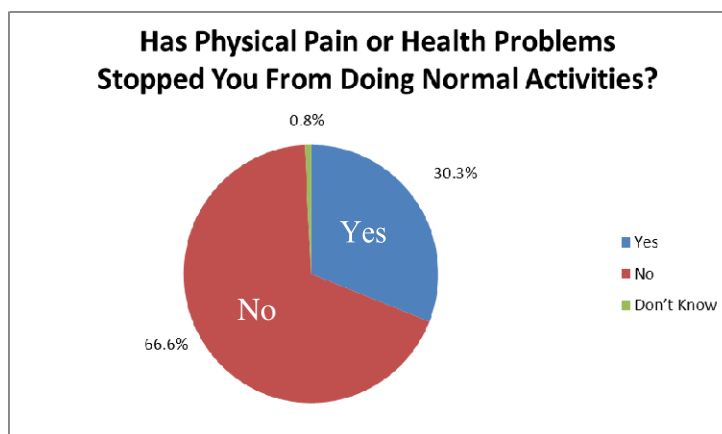

According to the US Census Bureau, the 2009 median household income in Beaufort County was \$38,829. The average household size was 2.36 people.

Question 17

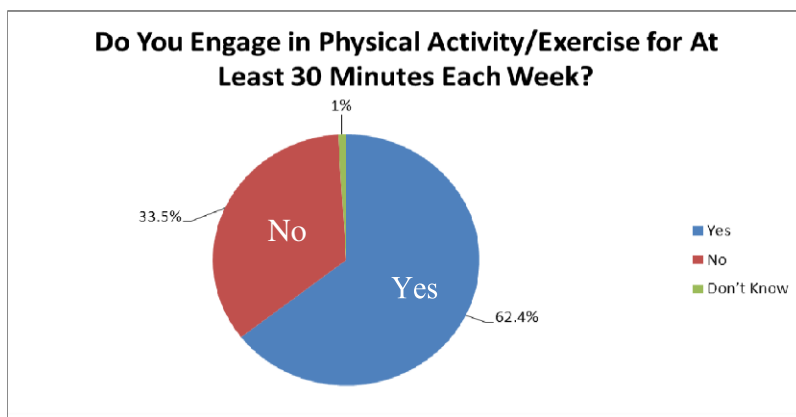

In the past 30 days, have you had any physical pain or health problems that made it hard for you to do your usual activities such as driving, working around the house, or going to work?

Of the 1,023 survey respondents 66.6% did not have any physical pain or health problems that made it hard for them to do their usual activities such as driving, working around the house, or going to work. 30.3% did experience physical pain or health problems that kept them from doing normal activities.

Question 18

During a normal week, other than in your regular job, do you engage in any physical activity or exercise that lasts at least a half an hour?

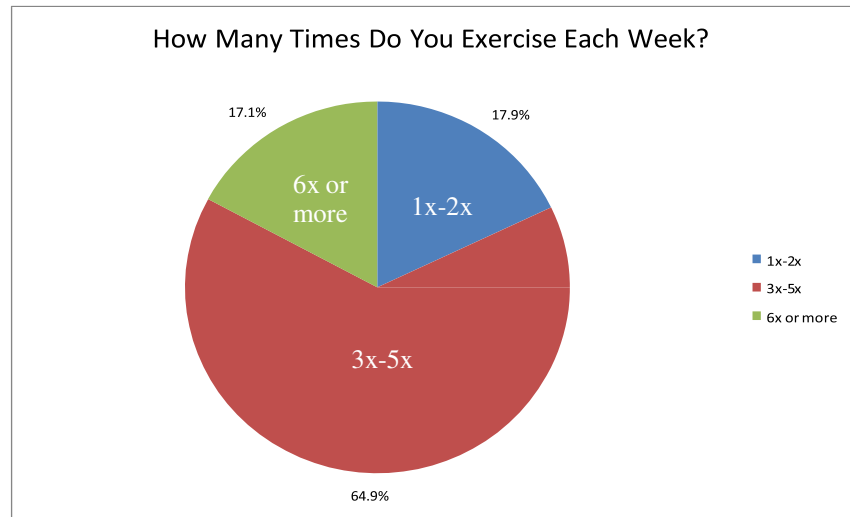

Of the 1,013 respondents, 62.4% do engage in physical activity/exercise for at least 30 minutes each week. 33.5% of respondents do not engage in physical activity/exercise for at least 30 minutes each week, and an additional 1% do not know if they engage in physical activity/exercise for at least 30 minutes during a normal week.

Question 19

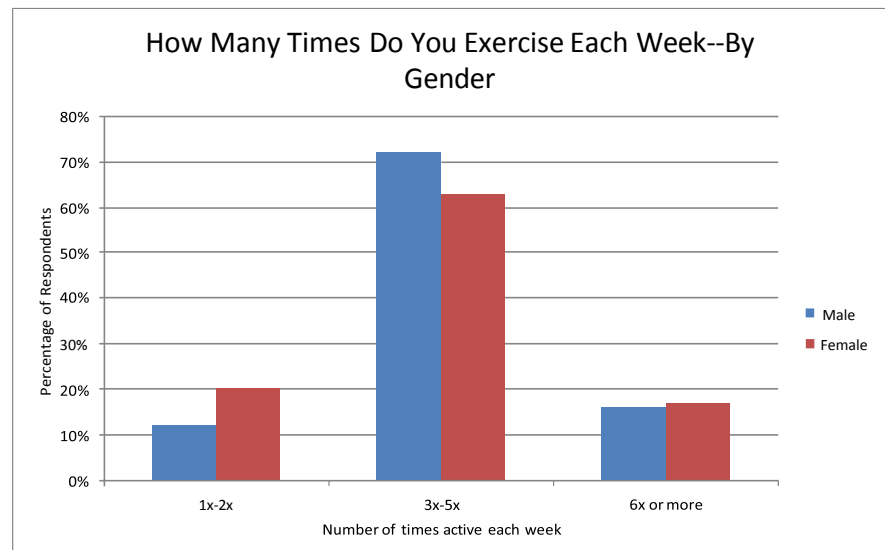

For those who exercise, how many times do you exercise or engage in physical activity during a normal week?

Of the 670 respondents who responded that they do engage in physical activity or exercise, almost two-thirds said they do so three to five times per week.

According to the Centers for Disease Control and Prevention, adults need 2.5 hours of moderate-intensity aerobic activity each week, and muscle-strengthening activities on 2 or more days a week that work all major muscle groups.

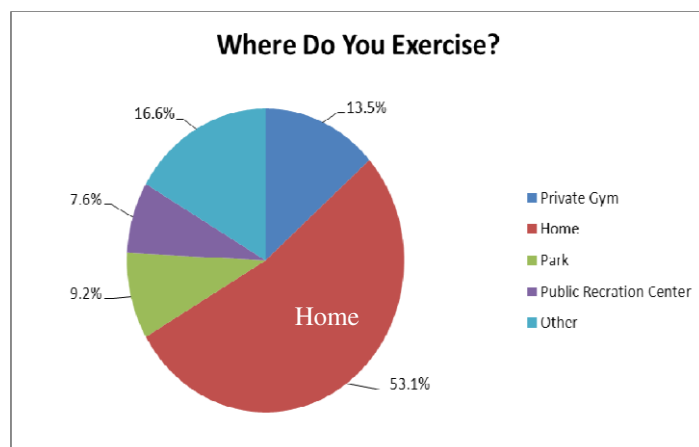

*Mosto/
those
surveyed
exercise
3-5 times
per
week.*

Results of the survey show that more male respondents exercise the recommended three to five times each week compared to females.

Question 20

For those who exercise, where do you go to exercise or engage in physical activity?

Question twenty asked survey respondents to tell where they exercise. Of the 1,044 respondents:

- ♦ 53.1% exercise at their home
- ♦ 13.5% exercise at a private gym
- ♦ 9.2% exercise at the park
- ♦ 7.6% exercise at the public recreation center
- ♦ The remaining 16.6% exercise at other locations not listed on the survey

Question 21

For those who do not exercise, what are the reasons for not exercising at least a half hour during a normal week?

<u>Why Do You Not Exercise?</u>	#	%
I don't have enough time to exercise	110	32.4%
I'm too tired to exercise	96	28.3%
I don't like to exercise	57	16.8%
I don't have access to a facility that has the things I need	51	15.0%
It costs too much to exercise	50	14.7%
My job is physical or hard labor	44	12.9%
I'm physically disabled	38	11.2%
I would need child care and I don't have it	35	10.3%
I don't know how to find exercise partners	20	5.8%
There is no safe place to exercise	12	3.5%
Exercise is not important to me	11	3.2%
I don't know	47	13.8%
Other	27	7.9%

According the survey results, 339 participants do not exercise at least a half hour during a normal week. Most respondents, 18%, reported that they do not exercise for at least 30 minutes during a normal week is because they do not have enough time. 28.3% of respondents reported that they are too tired to exercise and an additional 16.8% reported that they do not like to exercise.

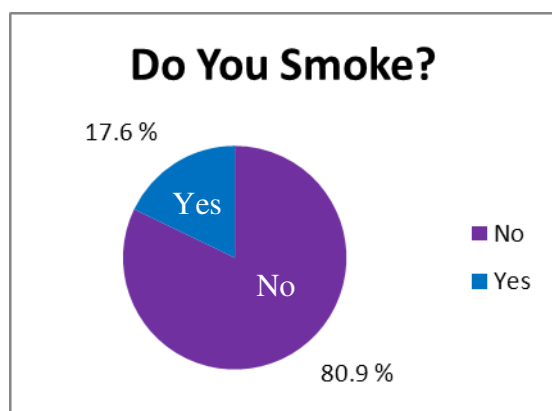

Question 22

How many cups per week of fruits, vegetables, and 100% fruit juice would you say you consume?

Question twenty two data has been omitted. The Community Health Assessment Partnership felt information was easily misinterpreted and would appear deceiving due to the likelihood of respondents answered consumption on a daily basis instead of weekly.

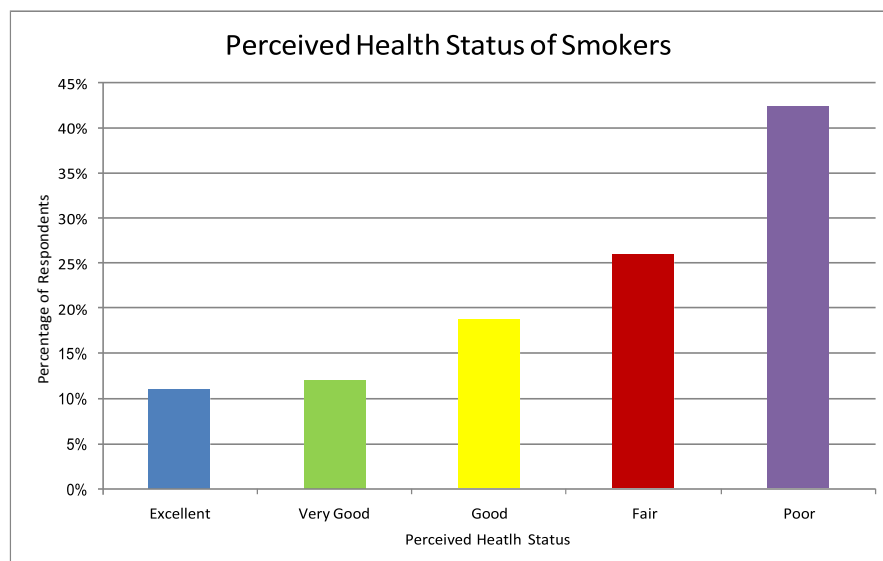

Question 23

Do you currently smoke?

Of the 1,031 who answered this question, 847 do not currently smoke, and 184 do smoke.

Of the survey respondents who said they are smokers, more than two-thirds described their current health status as fair or poor.

According to the Surgeon General, smoking causes many diseases and reduces the health of smokers in general

Question 24

For those who smoke, where would you go for help if you wanted to quit?

Question twenty four asked respondents who listed themselves as a smoker to select where they would go for help if they wanted to quit.

Of the 292 respondents,

- ◆ **10.7%** would seek advice from a doctor
- ◆ **2.4%** would seek help from a church
- ◆ **1.1%** would seek help from the health department
- ◆ **1.1%** would use the Quit Line NC
- ◆ **0.8%** would seek help from a pharmacy
- ◆ **0.5%** would seek help from a private counselor/therapist
- ◆ **6.5%** do not know where they would go for help
- ◆ **2.8%** of respondents do not want to quit smoking
- ◆ **2.3%** would seek help from resources other than those mentioned in the survey

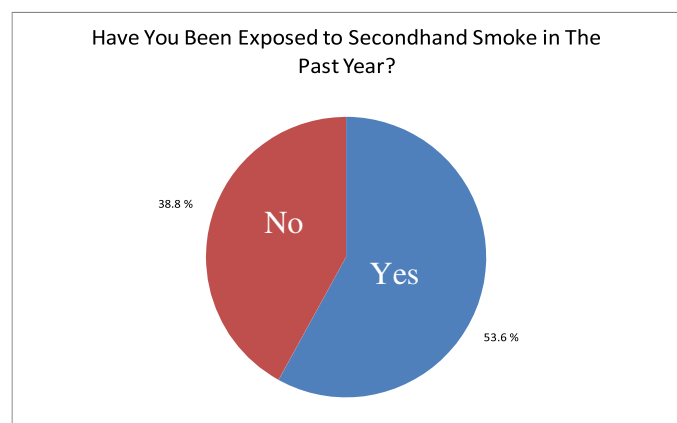

If you or someone
you know is
interested in
quitting, call:

1-800-QUIT-NOW

Question 25

Have you been exposed to secondhand smoke in the past year?

Of the 957 respondents who answered this question, 53.6% reported that they have been exposed to secondhand smoke in the past year.

Question 26

If exposed to secondhand smoke, where do you think you are exposed the most often?

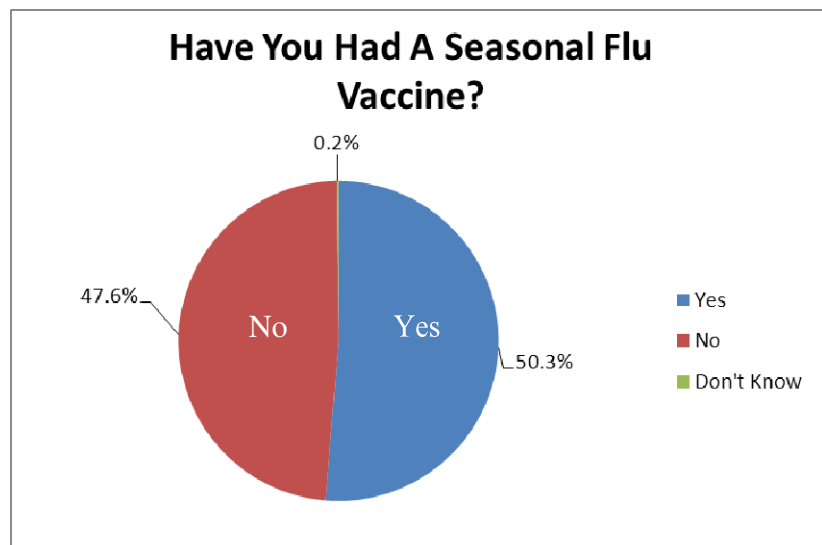

- ♦ 19.5% of respondents were exposed to secondhand smoke at their homes.
- ♦ 9.4% of respondents were exposed to secondhand smoke at their workplace.

As of January 2, 2010, House Bill 2 (S.L. 2009-27 [G. S. 130A-496]) went into effect requiring all restaurants, bars, and many lodging establishments to be smoke-free. The purpose of this law is to reduce the number of individuals who are exposed to secondhand smoke. Studies have shown that secondhand smoke is unsafe for smokers and nonsmokers to breathe and may cause cancer and heart disease.

Question 27

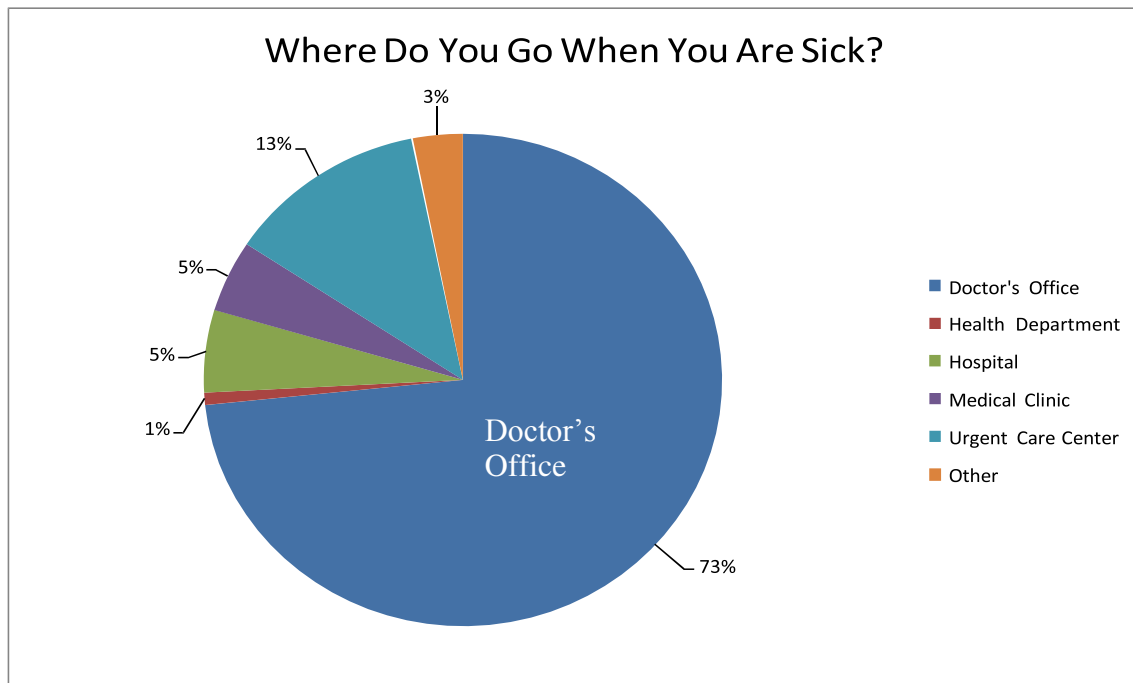

During the past 12 months, have you had a seasonal flu vaccine?

Of the 1,027 respondents who responded to question 27, 50.3% reported that they received a seasonal flu vaccine within the past 12 months. 47.6% of respondents indicated that they did not receive a seasonal flu vaccine during the past 12 months, and less than 1% of respondents did not know if they received a seasonal flu vaccine.

Question 28

Where do you go most often when you are sick?

Question twenty eight asked respondents to identify where they go most often when sick.

Of the 1,012 respondents:

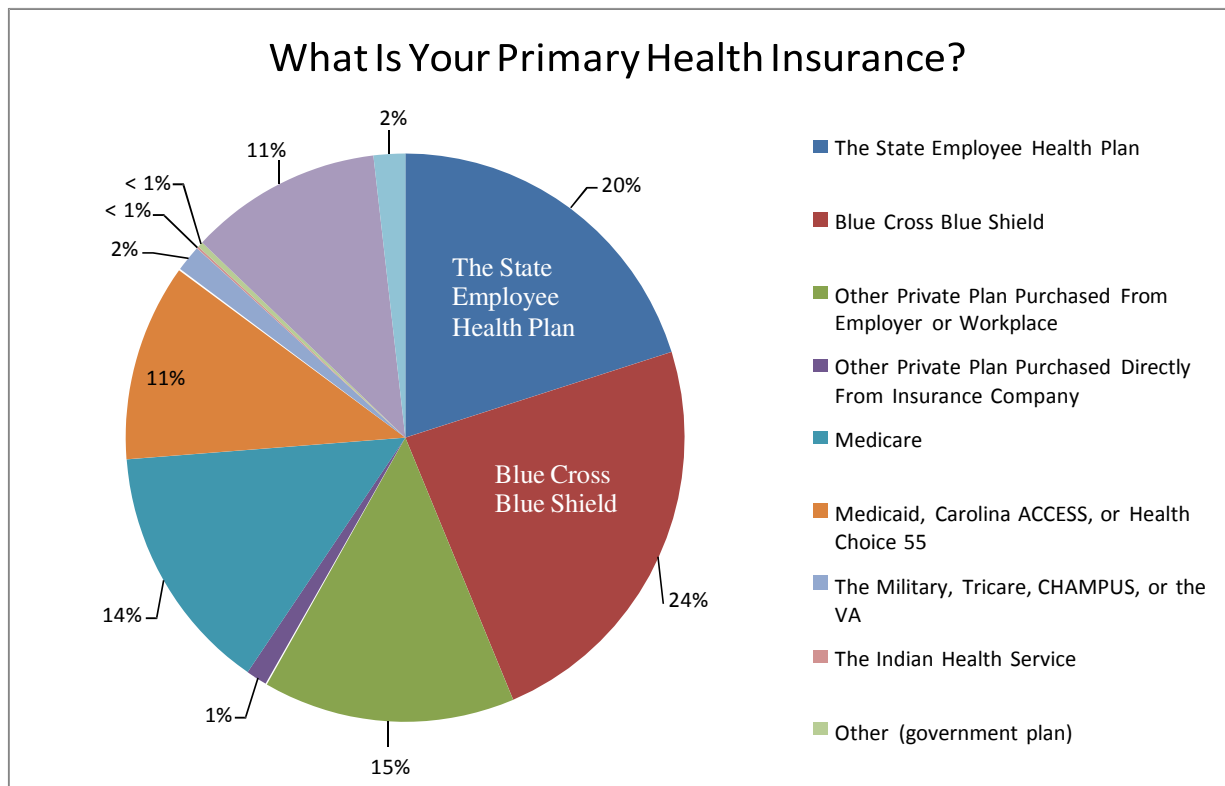

- ♦ **73.3%** go to a doctor's office
- ♦ **5%** of respondents go to an urgent care center
- ♦ **5.4%** of respondents visit the hospital
- ♦ **4.7%** of respondents visit a medical clinic
- ♦ **0.8%** of respondents visit the health department when they are sick
- ♦ **3.2%** of respondents visit a place other than those listed including:
 - ♦ Agape
 - ♦ Brody
 - ♦ Emergency Room
 - ♦ Family Clinic in Chocowinity
 - ♦ Hope Center
 - ♦ Pharmacy
 - ♦ Specialist
 - ♦ Stay home

Question 29

What is your primary health insurance plan?

Question twenty nine asked respondents to identify their primary health insurance plan.

While many participants mentioned multiple insurances for full coverage, participants were asked to identify only their primary insurance-the plan which pays the medical bills first or pays most of the medical bills.

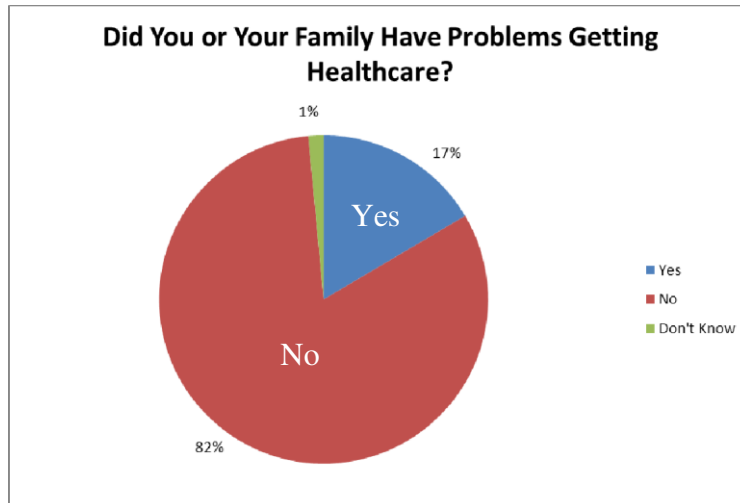

During 2008-2009, 23.5% of Beaufort County adults between the ages of 18 to 64 years were uninsured compared to 23.2% of the same ages across the state of North Carolina.

During 2008-2009, 11.9% of Beaufort County Children ages 0 to 18 years were uninsured compared to 11.5% of the same ages across the state of North Carolina.

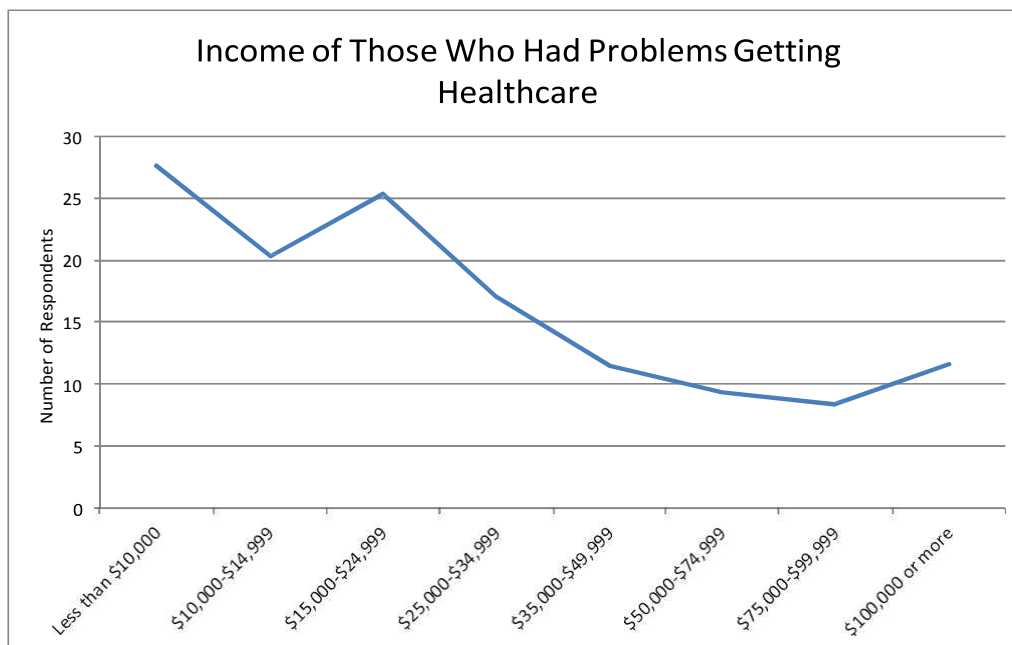

Beaufort County's uninsured rates are slightly higher than the statewide average.

Question 30

In the past 12 months, did you have a problem getting the health care you need for you personally or for a family member from any type of health care provider, dentist, pharmacy, or other facility?

Of the 1,012 respondents to question thirty, 82% reported that they did not have problems getting the healthcare they needed for themselves and/or a family member in the past year. 17% of respondents indicated that they did have problems getting the healthcare they needed for themselves and/or a family member in the past year.

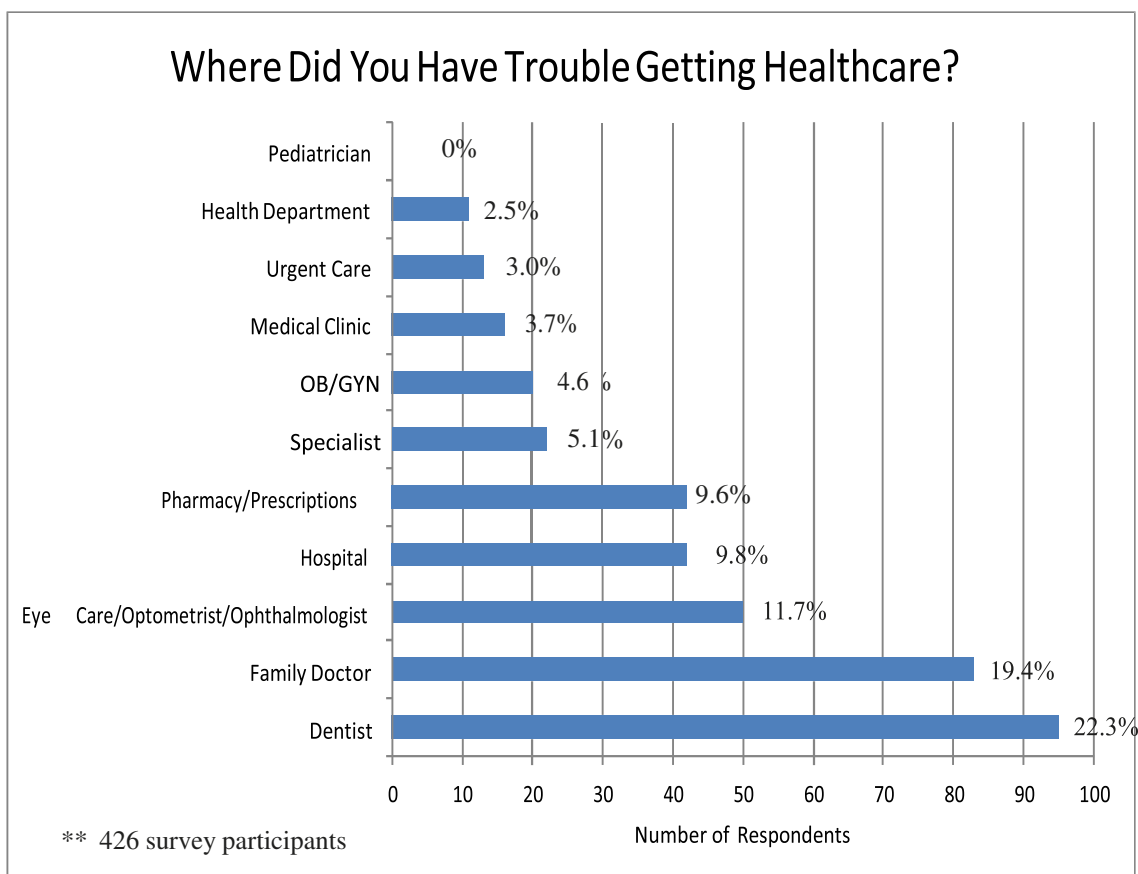

Based on survey results, respondents in the total household income bracket of less than \$10,000 most often had problems getting healthcare for themselves and/or a family member than any other income group. Respondents who had a total household income of \$75,000-\$99,000 had the least problems getting healthcare for themselves and/or a family member in the past 12 months.

Question 31

For those having difficulty with health care, what types of providers or facilities did you or your family member have trouble getting care from?

Question thirty one asked survey participants who said they had trouble getting healthcare in the past twelve months to list where they had problems getting healthcare.

33 survey respondents selected “Other” when asked to choose where they had trouble getting healthcare. Survey participants were asked to list where they had problems. The list included:

- ◆ Agape Health Clinic
- ◆ All
- ◆ Back Surgeon
- ◆ Cardiologist
- ◆ Dental Surgeon
- ◆ Dept. of Social Services
- ◆ Dermatologist
- ◆ Doctor Mary Conway
- ◆ Emergency Room
- ◆ Endocrinologist
- ◆ Gastroenterologist
- ◆ Hope Clinic
- ◆ Neurologist
- ◆ Nephrologist
- ◆ Orthopedist
- ◆ Pamlico Internal
- ◆ Pediatrician
- ◆ Psychiatrist
- ◆ Surgeon
- ◆ Urologist
- ◆ VA

Question 32

Which of these problems prevented you or your family member from getting the necessary health care?

Question thirty two asked those who had problems getting healthcare to describe the problem they had. The main problems of not receiving needed healthcare were lack of insurance or insurance not covering the needed healthcare.

	#	%
No health insurance	124	38.4%
Insurance didn't cover what I/we needed	43	12.4%
My/our share of the cost was too high	32	9.2%
The wait was too long	25	7.2%
Doctor would not take my/our insurance or Medicaid	23	6.6%
Couldn't get an appointment	23	6.6%
Dentist would not take my/our insurance or Medicaid	15	4.3%
Pharmacy would not take my/our insurance or Medicaid	10	2.8%
No way to get there	10	2.8%
Didn't know where to go	8	2.3%
Hospital would not take my/our insurance	4	1.1%
Other	29	8.3%

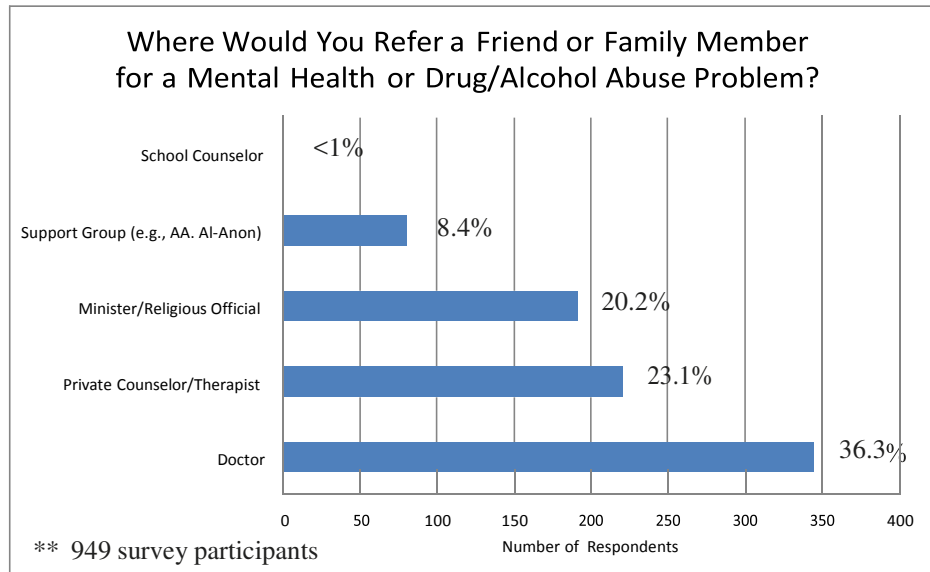

Over twenty survey participants listed “Other” problems getting healthcare. Responses included:

- ◆ Couldn't get Medicaid
- ◆ Couldn't see a doctor in a timely manner
- ◆ Even with insurance, costs are too high
- ◆ Hard to find physician accepting patients
- ◆ Have flex plan, but have to have cash up front
- ◆ Lack of doctors
- ◆ Medicaid would not cover prescriptions
- ◆ Medicaid would not cover x-rays
- ◆ Needed pre-screening
- ◆ No call back, had to go to Urgent Care
- ◆ No dentist to do root canal
- ◆ No doctor in the area
- ◆ No money once I could go
- ◆ No pediatric ophthalmologist in the area
- ◆ No work
- ◆ Retired
- ◆ Too many patients
- ◆ Wanted payment upfront

Question 33

If a friend or family member needed counseling for a mental health or a drug/alcohol abuse problem, who is the first person you would tell them to talk to?

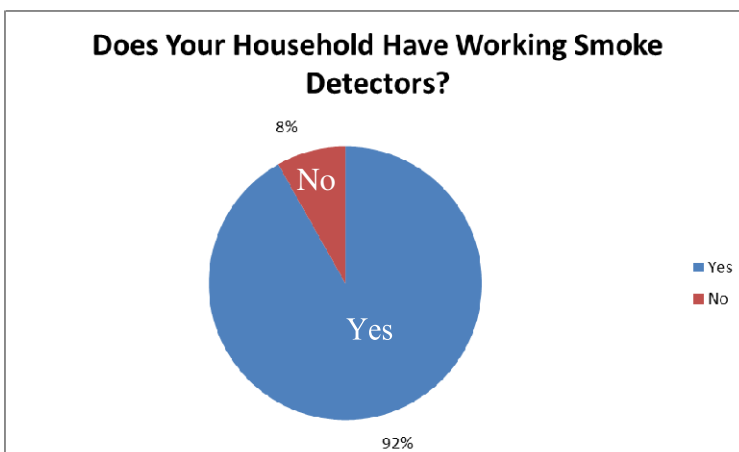

Most survey
would refer a
friend or family
doctor for a
mental health or
drug/alcohol
abuse problem.

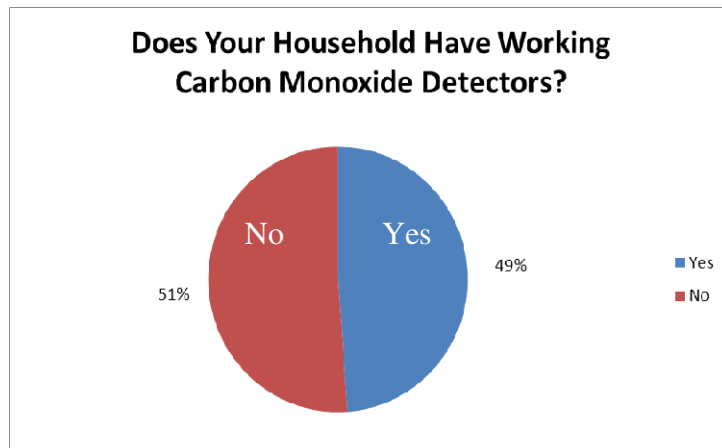

Question 34

Does your household have working smoke and carbon monoxide detectors?

Question thirty four asked respondents to identify if they had working smoke and carbon monoxide detectors.

Of the 1,004 respondents, 92% reported that they did have working smoke detectors in their household.

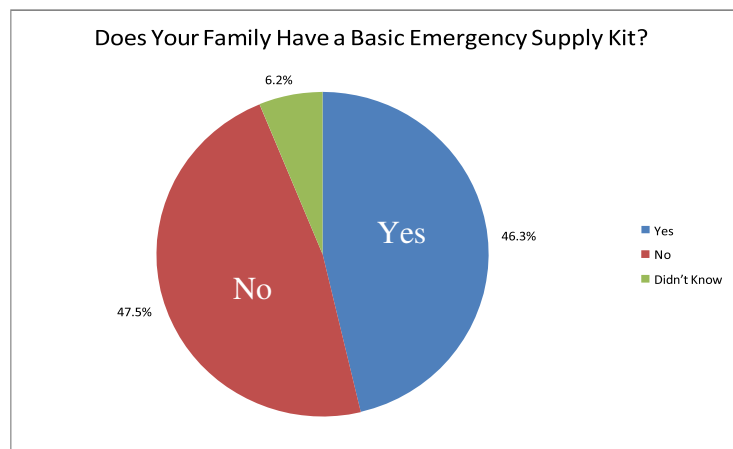

Of the 847 respondents, just under half, 49%, reported that they did have working carbon monoxide detectors in their households.

Carbon monoxide is an odorless, colorless gas that can cause sudden illness and death.

Question 35

Does your family have a basic emergency supply kit?

Question thirty five asked participants to identify if they had a basic emergency supply kit. The results were split.

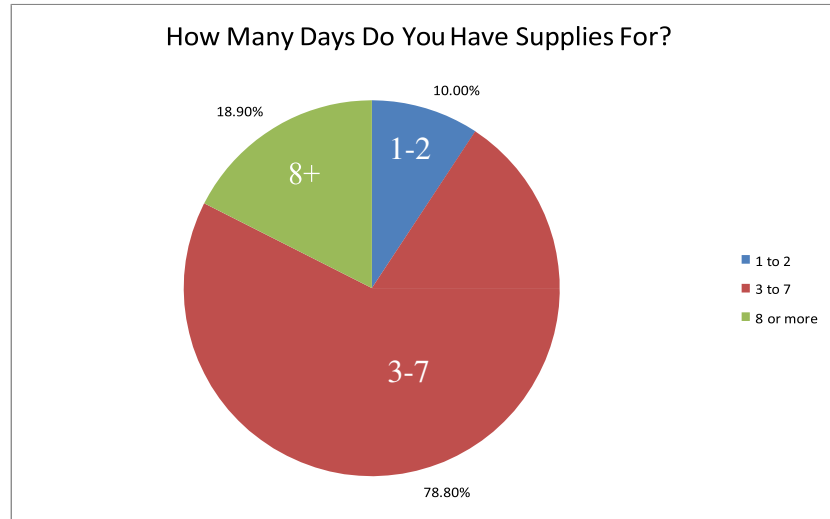

A basic emergency supply kit can prepare your family for emergencies. Plan to have at least 3 to 7 days of supplies including water, nonperishable food, personal supplies, and important documents.

Question 36

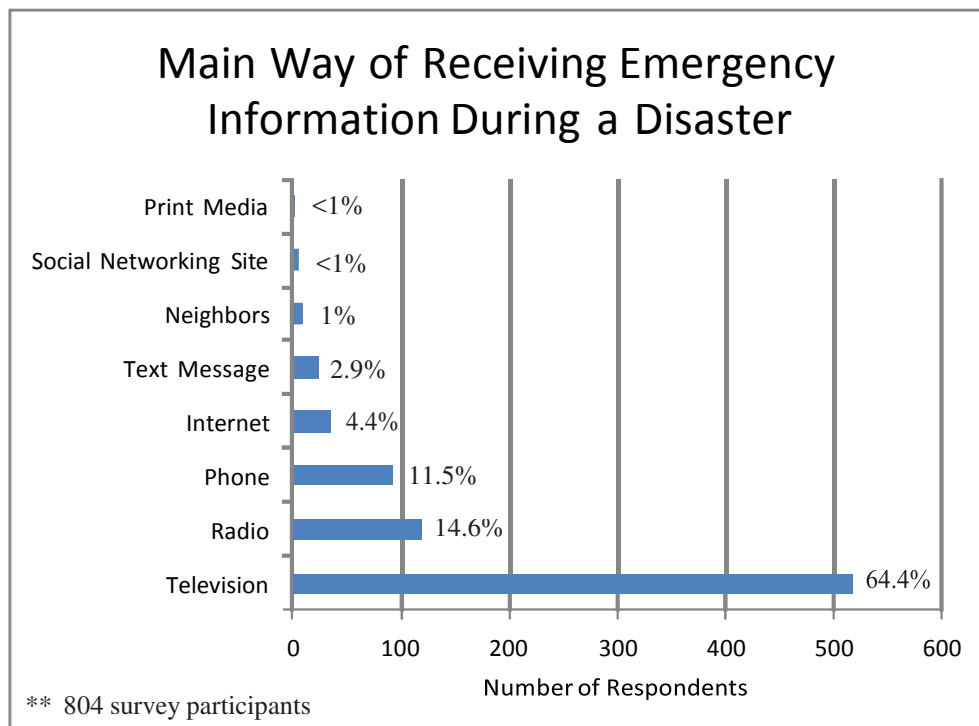

For those who have a supply kit, how many days do you have supplies for?

439 survey participants said they had a basic supply kit. Over three-fourths of respondents said they would have supplies lasting at a minimum of three days in the event of an emergency.

Question 37

What would be your main way of getting information from authorities in a large-scale disaster or emergency?

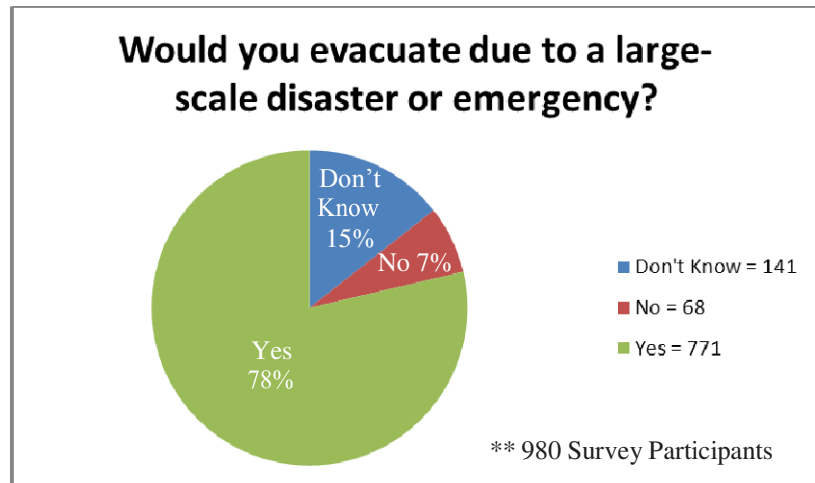

Battery operated radios can help you receive important information should electricity be unavailable and telephone lines down.

Question 38

If public authorities announced a mandatory evacuation from your neighborhood or community due to a large-scale disaster or emergency, would you evacuate?

The majority of Beaufort County respondents reported they would evacuate due to a large-scale disaster or emergency. However, more than 20% of respondents were unsure or would choose to stay.

Question 39

What would be the main reason you might not evacuate if asked to do so?

Why Would You Not Evacuate If Asked To Do So?

	Number	Percent
Health problems	11	3.3%
Concern about personal safety	17	5.1%
Concern about traffic jams and inability to get out	19	5.7%
Lack of transportation	37	11.2%
Concern about family safety	46	13.9%
Concern about leaving pets	69	20.9%
Concern about leaving property behind	77	23.4%
Don't know	53	16.1%

** 329 survey participants

Question 40

What is your age?

This graph shows the age distribution of survey participants.

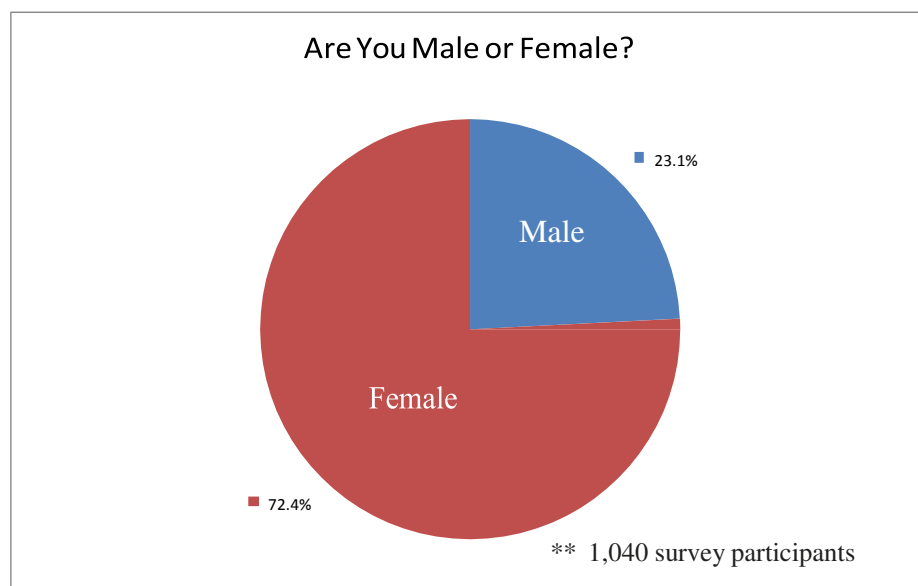

** 1,038 survey participants

Question 41

Are you male or female?

This chart shows that of the survey respondents who identified themselves as either male or female, almost three-fourths were female.

** 1,040 survey participants

Question 42a.

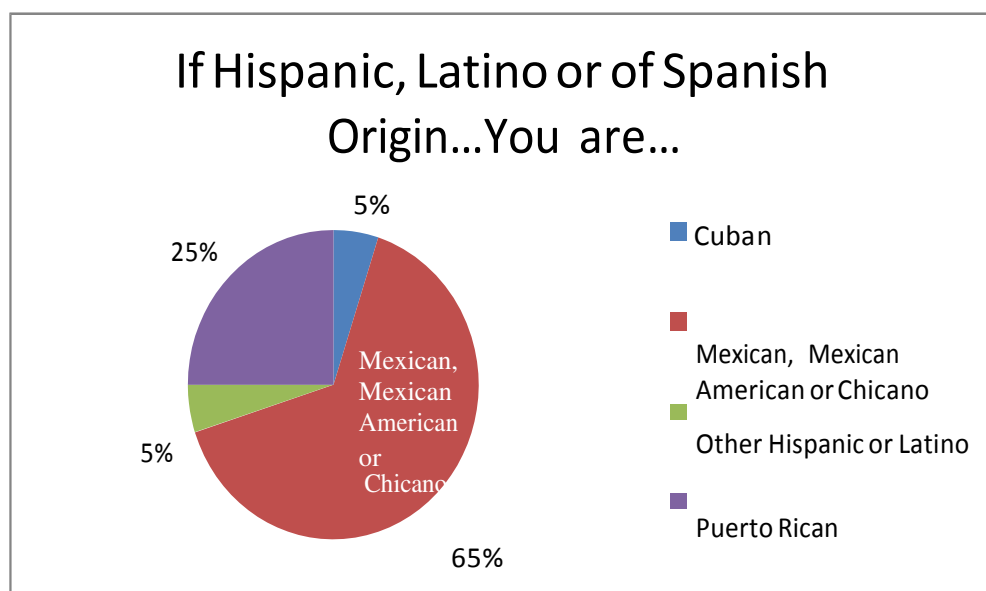

Are you of Hispanic, Latino, or Spanish origin?

Are you of Hispanic, Latino or Spanish origin?	Frequency	Percent
Did Not Answer	88	8.4%
No	932	89.1%
Yes	26	2.5%

Question 42b.

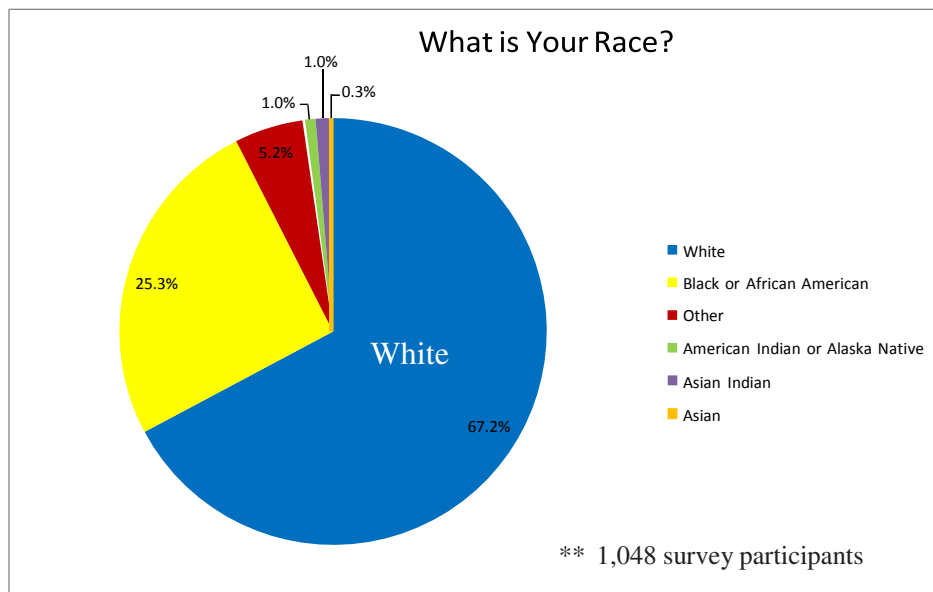

Of those Hispanic, Latino, or Spanish origin, are you..

- ♦ Mexican, Mexican American, or Chicano
- ♦ Puerto Rican
- ♦ Cuban
- ♦ Other

Question 43

What is your race? Please check all that apply.

The chart to the left shows that survey respondents mostly considered their race as white or black or African American.

Question 44a.

Do you speak a language other than English at home?

Do you speak a language other than English at home?	%
Yes	4.4%
No	90.2%
Did Not Answer	5.4%

Question 44b.

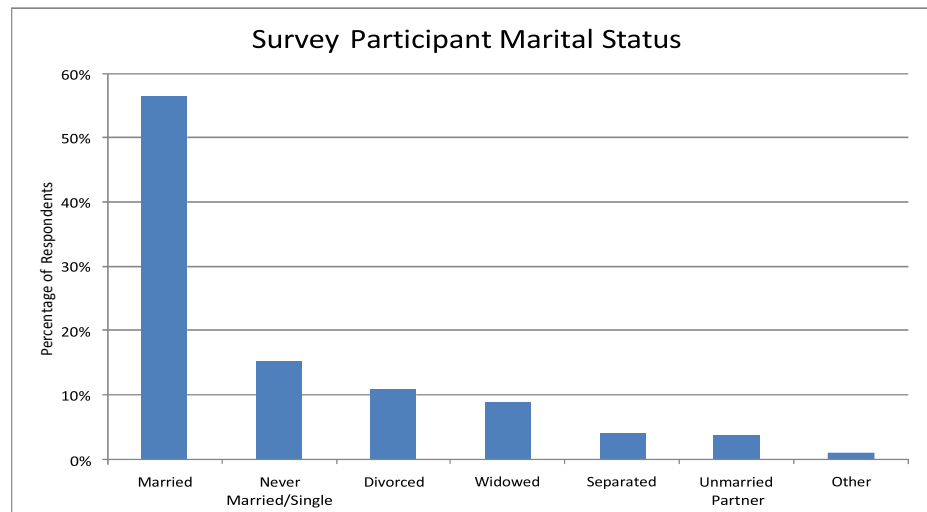

If you speak a language other than English at home, what language?

- ◆ Dutch (1)
- ◆ French (1)
- ◆ German (3)
- ◆ Hebrew (1)
- ◆ Italian (1)
- ◆ Portuguese (1)
- ◆ Puerto Rican (1)
- ◆ Romanian (1)
- ◆ Russian (1)
- ◆ Sign Language (1)
- ◆ Spanish (27)
- ◆ Ukrainian (1)
- ◆ Yiddish (1)

Question 45

What is your marital status?

Most survey participants are married.

Question 46

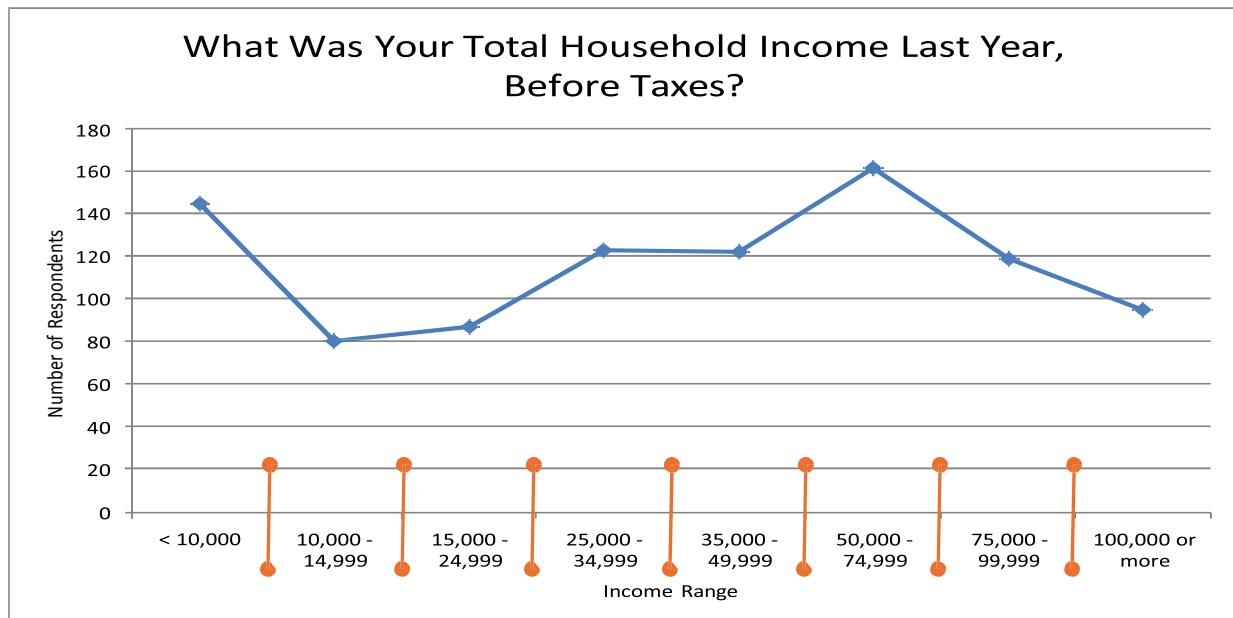

What is the highest level of school, college or vocational training you have finished?

	Percentage	Number
< 9th grade	2.1%	21
9th - 12th Grade, No Diploma	9.5%	94
High School Graduate or Equivalent	23.3%	231
Some College	20.4%	202
Associates Degree or Vocational Training	14.9%	148
Bachelors Degree	15.9%	158
Graduate or Professional Degree	12.5%	124
Other	1.4%	14

** 992 survey participants

Question 47

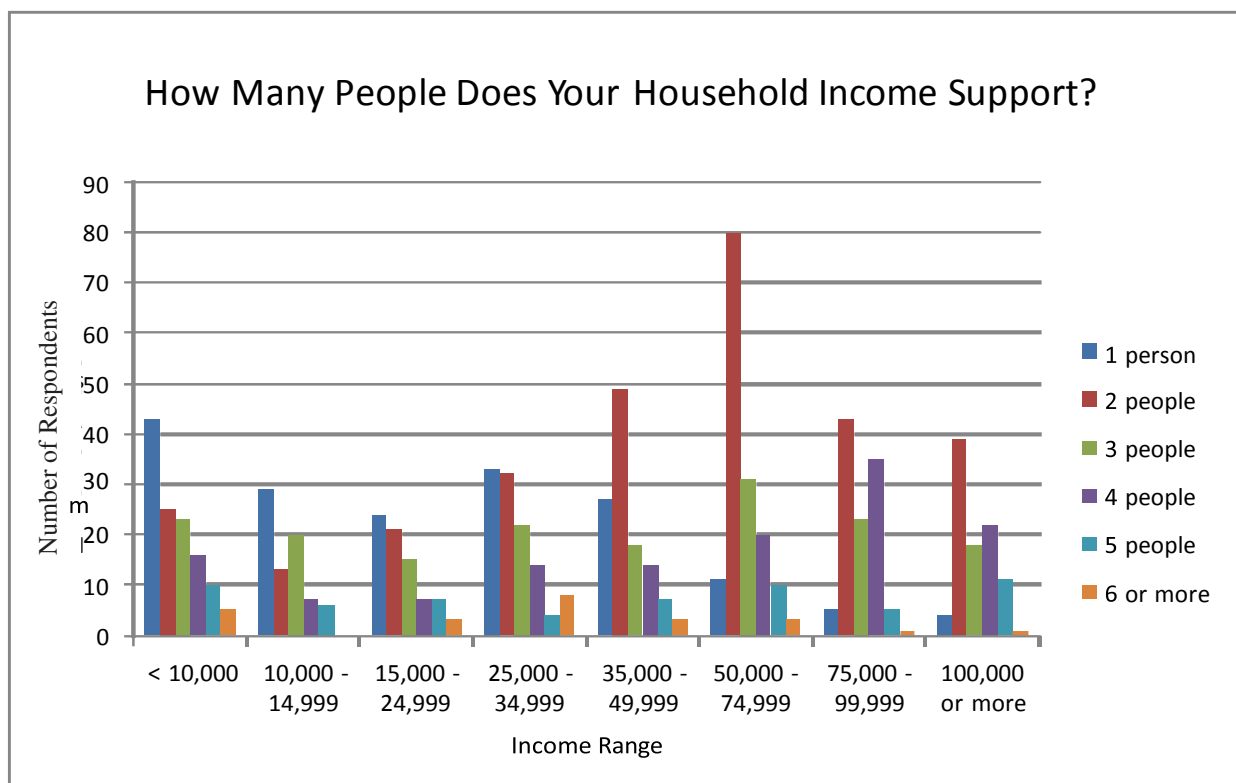

What was your total household income last year, before taxes?

The Median Household Income in 2009 was \$38,829.

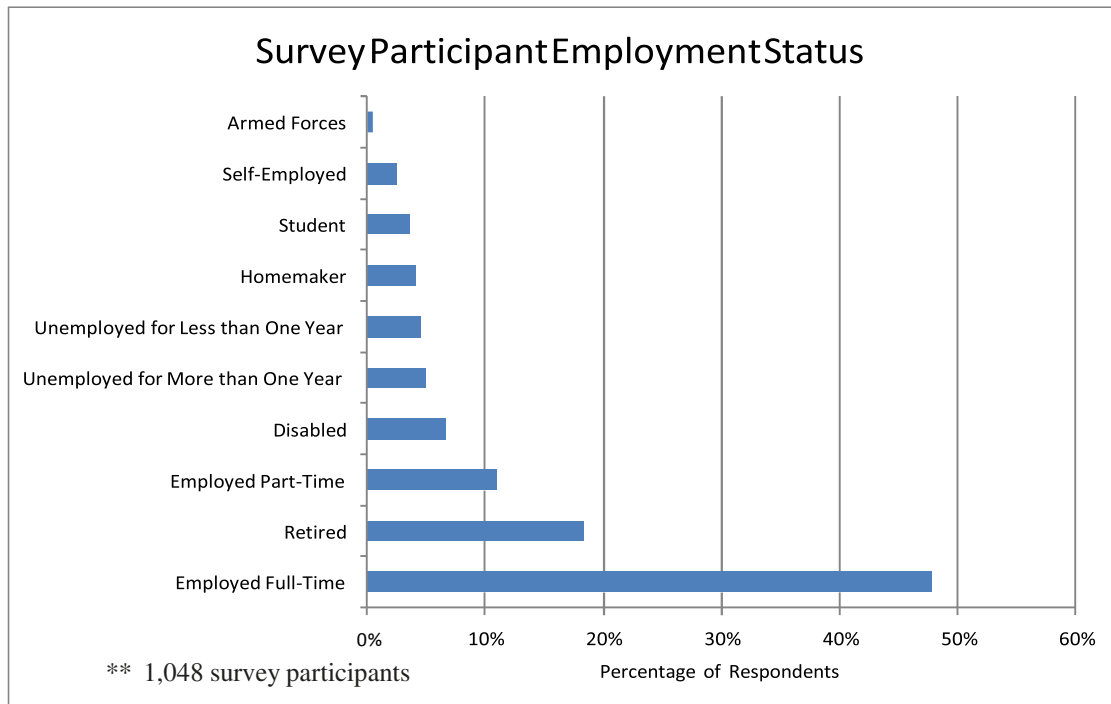

Question 48

How many people does your income support?

Question 49

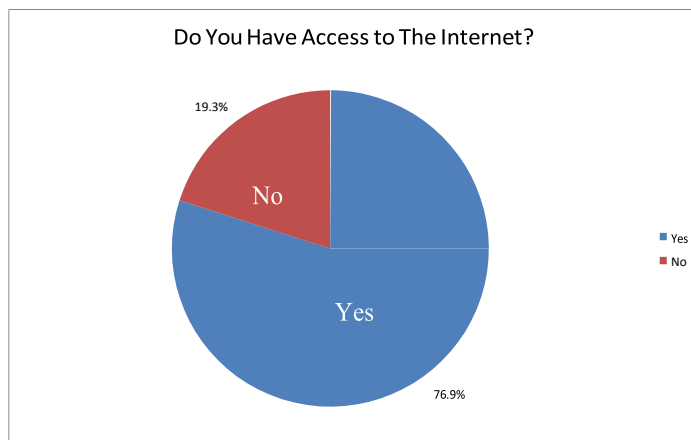

What is your employment status?

Almost half of the participants surveyed are employed full-time.

Question 50

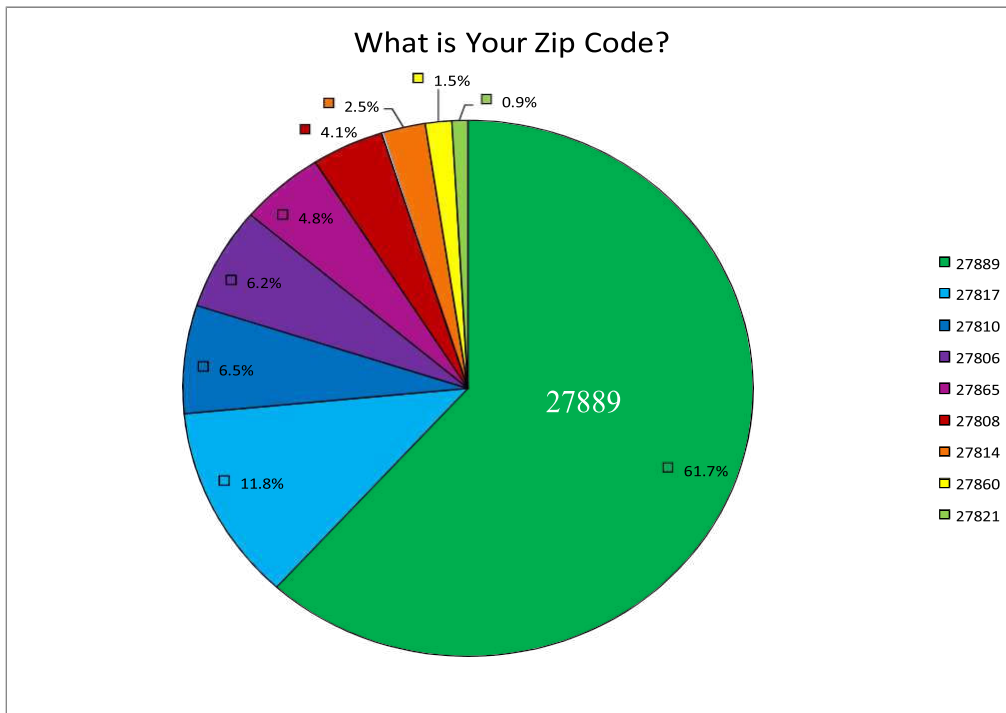

Do you have access to the internet?

*Over 75% o/survey
participants have
access to the internet.*

Question 51

What is your zip code?

Slightly over 60% of survey participants listed their zip code as 27889, Washington.

Zip Code	Location
27889	Washington
27817	Chocowinity
27810	Belhaven
27806	Aurora
27865	Pinetown
27808	Bath
27814	Blounts Creek
27860	Pantego
27821	Edward

Section VII

Beaufort County

In Comparison

Beaufort County is comparable to the North Carolina Counties of Lee, Montgomery and Person. These “peer counties” are considered similar based on the following criteria, which indicate different health needs or risk factors:

- ◆ Percentage of population less than 18 years old
- ◆ Percentage of population over 64 years old
- ◆ Percentage of non-white population
- ◆ Percentage of families with children (<18) living below the poverty level
- ◆ Total county population size

These comparisons are from the past five years of data.

Note: Rates or percentages which have a numerator value less than 20 are statistically unstable and have been shaded gray.

% Estimate of Uninsured Age 0-18

Year	Indicator Raw Values			Indicator Rate		
	Beaufort Co.	Peer Avg.	N.C.	Beaufort Co.	Peer	N.C.
2007	1,412	1,642	306,000	13.0	15.0	12.9

Appendix A

Community Opinion Survey

Beaufort Healthy Carolinians

A Healthy Carolinians Partnership...

2011 Community Health Survey

Beaufort County

We appreciate your willingness to participate in the 2011 Community Health Survey. It is completely voluntary, and it should take no longer than 20 minutes to complete. Your answers will be completely confidential. The information you give us will not be linked to you in any way. The data we collect from these surveys will help us diagnose the health concerns of our residence in our county.

ELIGIBILITY

You must live in Beaufort County and be at least 16 years of age for your answers to be reflected in this survey's data. Thank you again for your time and commitment to help address health concerns in your county.

PART 1: QUALITY OF LIFE

Please tell us whether you: **strongly disagree, disagree, are neutral, agree, or strongly agree** with each of the next 6 statements. Please CIRCLE YOUR ANSWER.

1. "There is good healthcare in Beaufort County"

Consider the cost and quality, number of options, and availability of healthcare in the county.

Strongly Disagree Disagree Are Neutral Agree Strongly Agree

2. "Beaufort County is a good place to raise children"

Consider the quality and safety of schools and child care programs, after school programs, and places to play in this county.

Strongly Disagree Disagree Are Neutral Agree Strongly Agree

3. "Beaufort County is a good place to grow old"

Consider the county's elder-friendly housing, transportation to medical services, recreation, and services for the elderly.

Strongly Disagree Disagree Are Neutral Agree Strongly Agree

4. "There is plenty of economic opportunity in Beaufort County"

Consider the number and quality of jobs, job training/higher education opportunities, and availability of affordable housing in the county.

Strongly Disagree Disagree Are Neutral Agree Strongly Agree

5. "Beaufort County is a safe place to live"

Consider how safe you feel at home, in the workplace, in schools, at playgrounds, parks, and shopping centers in the county.

Strongly Disagree Disagree Are Neutral Agree Strongly Agree

☐ Don't know

☐ Other: (describe) _____

PART 7. DEMOGRAPHIC QUESTIONS**40. What is your age? (Mark age category.)**

16 - 19	35 - 39	55 - 59	75 - 79
20 - 24	40 - 44	60 - 64	80 - 84
25 - 29	45 - 49	65 - 69	85 or older
30 - 34	50 - 54	70 - 74	

41. Are you Male or Female?

Male

Female

42a. Are you of Hispanic, Latino, or Spanish origin?

____ Yes

____ No (*If no, skip to #43*)**42b. If yes, are you:**

____ Mexican, Mexican American, or Chicano

____ Puerto Rican

____ Cuban

____ Other Hispanic or Latino (please specify)_____

43. What is your race? Please check all that apply. (*If of the J; please write in your race.*)

____ White

____ Black or African American

____ American Indian or Alaska Native

____ Asian Indian

____ Asian

____ Pacific Islander

____ Other, my race is not listed here:_____

44a. Do you speak a language other than English at home? (*If no, skip to #45.*)

____ Yes

____ No

44b. If yes, what language do you speak at home?*Please write in language* _____**45. What is your marital status? Mark only one. No explanation needed for "other".**

____ Never Married/Single

____ Separated

____ Married

____ Divorced

____ Unmarried partner

____ Widowed

____ Other

46. What is the highest level of school, college or vocational training that you have finished? (Mark only one.)

- ☐ Less than 9th grade
☐ 9-12th grade, no diploma
☐ High school graduate (or equivalent)
☐ Associate's Degree or Vocational Training
☐ Some college (no degree)
☐ Bachelor's degree
☐ Graduate or professional degree
☐ Other: _____

47. What was your total household income last year, before taxes? Mark only one.

- | | |
|---|---|
| <input type="checkbox"/> Less than \$10,000 | <input type="checkbox"/> \$35,000 to \$49,999 |
| <input type="checkbox"/> \$10,000 to \$14,999 | <input type="checkbox"/> \$50,000 to \$74,999 |
| <input type="checkbox"/> \$15,000 to \$24,999 | <input type="checkbox"/> \$75,000 to \$99,999 |
| <input type="checkbox"/> \$25,000 to \$34,999 | <input type="checkbox"/> \$100,000 or more |

48. How many people does this income support?

(If you pay child support for a child that is not living with you, this still counts as someone living on your income.)

Please write number here _____

49. What is your employment status? Check all that apply.

- | | |
|--|--|
| <input type="checkbox"/> Employed full-time | <input type="checkbox"/> Disabled |
| <input type="checkbox"/> Employed part-time | <input type="checkbox"/> Student |
| <input type="checkbox"/> Retired | |
| <input type="checkbox"/> Homemaker | |
| <input type="checkbox"/> Armed forces | <input type="checkbox"/> Self-employed |

50. Do you have access to the Internet?

Yes No Don't know

51. What is your zip code?

Write only the first 5 digits _____

THANK YOU SO MUCH FOR TAKING THE TIME TO COMPLETE THIS SURVEY!

Community Health Needs Assessment Addendums

Addendums A-D represent additions made by Vidant Beaufort Hospital and Vidant Pungo Hospital after the CHNA was printed.

Addendum A: Informational Gaps

Significant effort was made to gather a wide range of survey participants in varying areas of our service line. Upon generating reports on the data we did find that almost 75% of the survey participants were female. However, we did not feel that this figure could be necessarily defined as an 'information gap' and/or would effect the final data.

Addendum B: Input from the broad interests of the community.

The Community Health Needs Assessment (CHNA) team was very diligent in their efforts to have a diverse representation in the collection of data and narrowing of the focus areas from the CHNA surveys. The initial members of the CHNA team represented public health, our hospitals and physician practices, children and teen health, senior health services, local businesses, Department of Parks and Recreation, Beaufort County Schools and child nutrition. As explained in the CHNA report to the community, the data was prioritized by several groups including the Beaufort County Resource Connection. The Beaufort County Resource Connection gives Beaufort County residents easy access to the resources and information they need with intentions on making the community healthier and stronger. Access to resources and information is available to all residents, including medically underserved, low-income, and minority populations.

Beaufort County Health Department's management team was the last step in prioritizing the survey data. Their final decision on the top areas of concern for our service area was later presented to Vidant Beaufort and Vidant Pungo hospitals' Community Benefit Grants Review Committees. These committees evaluated the focus areas established by the Health Department to reflect Vidant Beaufort Hospital's and Vidant Pungo Hospital's individual major health concerns for our service areas. The Vidant Beaufort Hospital Grants Review Committee includes the Beaufort County Health Department director, the director of the Grace Martin Harwell Senior Center, a local pediatrician, the former director of Beaufort County Cooperative Extension, members of the Vidant Beaufort Hospital directors council as well as the president and senior director of growth and clinical services for Vidant Beaufort Hospital. The Vidant Pungo Hospital Grants Committee includes the president of the directors council, the hospital president, the Beaufort County Health Department, Economic Development, hospital foundation members and the director of human resources for the hospital.

Included below are the organizations that made up the Community Health Needs Assessment Team:

ORGANIZATION	TEAM MEMBER	TITLE
Beaufort County Health Department	Kelli Russell	Human Services Planner III
Beaufort County Health Department	Megan Price	Public Health Education Specialist
Beaufort County Health Department	Sherry Clark	Child Care Health Consultant
Beaufort County Health Department	Stacey Harris	Environmental Health Supervisor
Beaufort Regional Health System (Now Vidant Beaufort Hospital)	Amanda Sanders	Marketing & Public Relations
Beaufort County Cooperative Extension	Louise Hinsley	Extension Agent
Beaufort County Schools	Michele Oros	Grants Coordinator
Beaufort County Schools Child Nutrition	Gwen McBride	Nutrition Manager
Beaufort Hyde Partnership for Children	Catherine Keech	Child Care Resource Director
Beaufort-Martin-Tyrrell-Washington Teen Tobacco Prevention Program	Megan Hauser	Teen Tobacco Coordinator
Grace Martin Harwell Senior Center	Carolyn Everett	Special Populations Supervisor
Metropolitan Community Health Services	Victoria Rolinsky-Rader	Health Educator
Mid-East Commission Area Agency on Aging	Edwina Fyle	Aging Specialist
Seniors Center Belhaven	Marty Dail	Aging Specialist
City of Washington Parks and Recreation	Kristi Hardison	Events and Facilities Manager
Washington Beaufort County Chamber of Commerce	Robin McKeithan	Business Manager

*Traveling distance prohibited Vidant Pungo Hospital from being on the CHNA Committee. However, Jenny Brown, director of human resources and Arden Root, Foundation Coordinator were liaisons between Pungo Hospital and the CHNA Committee. Each provided feedback on meeting minutes and during the revision process of the CHNA document, as well as information needed regarding Pungo Hospital, their programs and their resources.

Addendum C: Individuals providing input who have special knowledge of public health.

Kelli Russell, MPH, RHED, Human Services Planner III with Beaufort County Health Department (BCHD.) Employed with BCHD for past 7 years and held multiple positions: Public Health Education Specialist, Health Education Supervisor, and Human Services Planner III. Coordinated 2007 Community Health Assessment and 2006, 2008, 2009, 2010 and 2012 SOTCH Reports. Currently serves county as Preparedness Coordinator and BCHD's Public Information Officer. Community organization participation: Beaufort County PAN, Healthy Carolinians (current Chair), BC Resource Connection and Eastern Regional Advisory Committee.

Roxanne Holloman, MA, REHS, Health Director for Beaufort County Health Department (BCHD) has enjoyed a 31 year career in public health. Before coming to BCHD in May 2000, she has worked in public health in positions of increasing responsibility in a variety of settings. Ms. Holloman attended the Management Academy for Public Health, the South East leadership Institute and the National Public Health Leadership Institute. In addition to directing a staff of 46, Ms. Holloman oversees a budget of \$3.1 million. She has experience with Lean Quality Improvement strategy for public health and is active in various Public Health organizations throughout the state.

Addendum D: Individuals providing input who is a leader or representative of underserved, low-income minority populations.

Megan Price, BS, Public Health Education Specialist with Beaufort County Health Department. Employed as PHES for 1.5 years. Assisted with 2011 Community Health Assessment. Currently serves as HIV/STI Educator and Chair of Beaufort County PAN Coalition.

Also representing this group was Victoria Rolinsky-Rader with Metropolitan Community Health Services, a local Federally Qualified Health Center and Gwen McBride with Beaufort County Schools Child Nutrition.
