Employee Parking

Like many hospitals, our facility and parking lots have grown to cover the entire hospital property.

During our busiest times, we have found that patients, family members and visitors grow frustrated because they have to park in distant lots beyond the hospital grounds.

It's our goal to provide ample, nearby patient and visitor parking.

The front parking lot (in green) is reserved for patients and visitors.

Employee parking is located in the north and west lots (in blue).

Employees are not permitted to park in the front Patient Parking Lot when working.

If you have any safety concerns, Vidant Company Police officers are glad to escort you to your vehicle. Please call them at 296-2762.
