

# Visitor Restrictions

Thank you for trusting ECU Health to care for you and your loved ones. The safety of our patients, visitors and team members is our top priority. As ECU Health monitors and responds to the COVID-19 pandemic across North Carolina, we are taking steps to ensure the safety of all. ECU Health remains vigilant with its screening process for all visitors, entry requirements and visitor restrictions by department. ECU Health continues to closely track local data, including COVID-19 cases in our region and hospitals, and will adjust visitation restrictions accordingly.

In following the ADA (Americans with Disabilities Act) guidelines, visitors who need assistance due to a disability may have an additional individual with them when visiting a loved one in an ECU Health facility to help navigate the current visitor guidelines.

ECU Health is committed to accommodating safe, compassionate visitation and supporting patients' healing process.

## Visiting Hours and Restrictions by Department

All visitors must be screened and follow entry requirements:
