## Helpful tips

- Use Diagnostic departments for x-rays
- Use Ultrasound departments for the following Invasive Ultrasounds: biopsy, paracentesis, thoracentesis, and drainages (order under [US Written Consult](#) for one of these procedures)
- For pediatric patients that need sedation, upload the P-Day Sedation Referral form into the radiology order in CareLink and send to VMC-PEDS MED DAY UNIT.
- The P-Day Sedation Referral form and standardized fax order forms can be found on our website [ECUHealth.org](http://ECUHealth.org)

For questions or issues with CareLink, contact the **Physician Outreach Team** at [PhysicianOutreach@vidanthealth.com](mailto:PhysicianOutreach@vidanthealth.com)
