

Community Health Implementation Strategy

FY 2022 - 2025

Executive Summary

ECU Health Duplin Hospital (formally Vidant Duplin Hospital) is an eighty-one bed, not-for-profit, community hospital located in Kenansville, NC. The hospital provides emergency, medical/surgical, intensive care, obstetrical/gynecological, respiratory, laboratory and radiology services, as well as specialty and primary care clinics.

ECU Health Duplin is one of nine hospitals that comprise ECU Health. ECU Health is a regional health system serving 1.4 million people in 29 counties throughout rural eastern North Carolina. Most of the counties served by ECU Health are listed in the top 40 most economically distressed areas in the state (67% of ECU Health Health's counties are classified as Tier 1 counties; 33% of the counties are classified as Tier 2 counties). The system consists of ECU Health Medical Center (an academic medical center), eight community hospitals, an ambulatory surgery center, wellness, and rehabilitation facilities, home health agencies and other independently operated health services. ECU Health is affiliated with the Brody School of Medicine at East Carolina University.

The mission of ECU Health is to improve the health and well-being of eastern North Carolina. Our vision is to become a national model for rural health and wellness by creating a premier, trusted health care delivery and education system. Integral to our mission is our commitment to be responsive to our community's needs and to provide high quality, cost-effective health care services.

Description of Community

The primary service area for ECU Health Duplin Hospital is Duplin County, North Carolina. Towns that make up the county include Beulaville, Calypso, Faison, Greenevers, Kenansville, Magnolia, Rose Hill, Teachey, Wallace and Warsaw.

As of 2019, the county's population at 59,741. The White population accounts for 71.2% of the total population in Duplin County, with the Black or African American population accounting for 23.8% of the total population. The Hispanic/Latino population comprises 22.2% of Duplin County, which is significantly higher than North Carolina (9.2%). The population under the age of 25 years is 32.3% and 18% are over the age of 65 years.

Duplin County is designated as one of the 40 Tier 1 counties, meaning it is one of the most economically distressed counties in the state. The rate of individuals aged 0-64 years old that have health insurance coverage in Duplin County is 79.3%, which is lower than the rate for North Carolina (87.3%). In addition, 21% of all people in Duplin County live in poverty, with 34% of Duplin County children living in poverty. These factors contribute to the health challenges identified in the 2022 Community Health Needs Assessment (CHNA).

Participants

Health ENC – 2022 Community Health Needs Assessment

Initiated in 2015 by the Office of Health Access at the Brody School of Medicine at East Carolina University, Health ENC grew out of conversations with health care leaders about improving the assessment CHNA process in eastern North Carolina. Health ENC, now a partnership among county health departments and hospitals in eastern NC, coordinates a regional CHNA in 33 counties of eastern North Carolina. In addition, the Health ENC Program Manager works to build coalitions and partnerships that will address health issues identified through the regional CHNA process.

As part of the assessment process, members of ECU Health Duplin Hospital and the Duplin County Health Department worked collaboratively to distribute a community health opinion survey to various segments of the population in Duplin County. The survey was printed in English and Spanish and distributed to a broad range of people in the community, targeting different income levels, including underserved members of the community, the elderly, and the general population. In addition to the paper surveys, a web-based survey tool was developed by Health ENC and made available to the public through different email lists. The survey was also publicized through the local newspaper and social media. The survey was used to collect primary data from April 1 - June 30, 2021. A total of 447 community members completed the survey.

Community Key Stakeholder Group – Duplin County

The following community stakeholders were represented in the planning, data review and prioritization process for the 2022 Duplin County CHNA:

ECU Health Duplin Hospital	Duplin County Health Department
Duplin County 4-H, Prevention Services	Duplin County Board of Health
Duplin County Commissioners	Duplin County Public Libraries
Duplin County Public Schools	ECU Health Corporate
Health Access & Equity at NC FIELD	Shackle-Free Community Outreach
Mediation Center of Eastern Carolina	Duplin Christian Outreach Ministries
NC Cooperative Extension Office	ECU Health Duplin Foundation
Vidant Medical Group	

ECU Health Duplin Foundation Community Benefits Grants Program

ECU Health is committed to improving the health and well-being of eastern North Carolina. We partner and serve community members throughout the continuum of care. With our mission at the forefront of our efforts, ECU Health Medical Center (formerly Vidant Medical Center) made a substantial donation to the ECU Health Foundation (formerly Vidant Health Foundation) in 1998 to establish the Community Benefit and Health Initiatives Grants program. In 2006, the program extended its outreach by establishing a Regional Community Benefits Grants program which works with ECU Health regional hospitals to distribute grants to their communities.

The goal of the program is to support outreach projects that focus on wellness and prevention strategies. The Community Benefit Grants program supports community partners to educate people about disease prevention and management, provide people with the knowledge and tools to be successful in their own health care and establish programs within communities, making them available and more accessible to community members who need these programs/services. The ECU Health Duplin Foundation distributes more than \$95,000 annually to various agencies/organizations in and around Duplin County.

The foundation's funding focus areas are based on the health priorities identified in the most recent CHNA.

2022 Community Health Priorities for Duplin County

The comprehensive 2022 Community Health Needs Assessment for Duplin County included significant input from community members, as well as a wealth of information from local, state and national data sources. Key stakeholders reviewed primary and secondary data. Following an in-depth discussion of the assessment data and existing community resources, the key stakeholder group selected three health priorities for focus over the next three years.

These three health priorities are:

- Chronic Disease Prevention
- Access to Care
- Mental Health/Illness

Implementation Strategies
