The Outer Banks Hospital, Inc.:

Part V, Section B, Line 5: The CHNA document is the culmination of a partnership between the Dare County Department of Public Health (DCDPH) and The Outer Banks Hospital (TOBH).

These partners include schools, health-focused not-for-profits, community health initiatives, local chamber of commerce representatives, and other agencies dedicated to promoting the well-being of their communities.

These partners represent a wide range of diverse constituencies including children, seniors, and underserved populations. The information created through this collaborative effort is then used to determine areas of health needs focus for the individual entities and also for creating partnerships to address needs where possible.

The Outer Banks Hospital, Inc.:

Part V, Section B, Line 6b: The members of local coalitions are representatives of the agencies and organizations that serve the health and human service needs of the local population, as well as representatives from businesses, communities of faith, schools and civic groups. In Dare County, the local Healthy Carolinians coalition is Healthy Carolinians of the Outer Banks (HCOB). The Community Health Needs Assessment was completed in a joint partnership between

The Outer Banks Hospital, Dare County Department of Public Health and the members of the Healthy Carolinians of the Outer Banks (HCOB).

Section C. Supplemental Information for Part V, Section B. The Outer Banks Hospital, Inc.:

Part V, Section B, Line 11: Certain community needs may not be fully documented or addressed in the Community Health Needs Assessment. These needs are generally those which other organizations share an overlap with The Outer Banks Hospital. TOBH is not equipped to handle all needs and has prioritized those that it can fully address.

The Outer Banks Hospital, Inc.:

Part V, Section B, Line 16j: The full policy is not available on the facility website. In lieu of the policy, a concise summary is provided with pertinent details and phone numbers for additional information.

Pai	CL	Ι.	Line	/:

Costs were calculated using the estimated cost to charge ratio from The

North Carolina Hospital Association's Advocacy Needs Data Initiative which
is the standard for reporting community benefits in North Carolina.

Part II, Community Building Activities:

The community building activities of The Outer Banks Hospital involve services that are otherwise not provided by other organizations in the patient area.

Part III, Line 2:

In connection with the Presumptive Eligibility consideration of the

Affordable Care Act, The Outer Banks Hospital does not reflect any bad

debt in connection with FAP-eligible patients. These patients are presumed
to be part of the Medicaid population and afforded coverage as such.

Part III, Line 4:

The financial statements of The Outer Banks Hospital are presented on a

stand-alone basis; the text of the footnote from page 11 is presented
below:

Patient Accounts Receivable

Patient Accounts Receivable are reported net of estimated allowances for contractual adjustments and allowances for bad debts. Estimated allowances for bad debts are approximately \$3.8 million and \$5.3 million as of September 30, 2022 and 2021, respectively.

Part III, Line 8:

The shortfall of Medicare revenue to Medicare was calculated according to the cost to charge ratio. Allowable costs of care should be considered community benefit because in the area served by TOBH, there are no other providers available to provide the required services. Therefore, the care would become a government obligation and is treated as a community benefit provided by TOBH.

Part III, Line 9b:

Recommended patient accounts will continue to go through the accounts receivable billing cycle as normal. When the account reaches the customer service/collections manager, financial counseling supervisor or patient accounts supervisor, based on the information given, a decision will be made whether to proceed with collection or refer the account for approval of charity care. The process will occur as follows:

I. Financial counselors will try to locate third party payors. If not eligible for any third party coverage (including charities), they may, based upon the financial information received, recommend the patient for charity care.

- II. Patient counselors will review for any third party payors and verify
 employment and assets. A charity care application will need to be
 completed along with tax return, pay stubs, social security award letter
 and other financial information as may be required.
- III. The patient accounts supervisor, financial counseling supervisor or customer service/collections manager, based upon account balance and the information given, will make a decision whether to proceed with collection or refer the patient account for approval for charity care. Presumptive eligibility for charity care there are occasions in which a patient may appear eligible for a charity care discount, but there is no financial assistance information available to support financial aid.
- A. Some patients are presumed to be eligible for charity care discounts on the basis of individual life circumstances (e.g., homelessness, patients with no income, bankruptcy, deceased patients with no estate or spouse, etc).
- B. Through the assistance of a third party vendor and certain algorithms, in conjuction with our charity policy guidelines, all accounts, prior to outside collection agency referral, will be tested for presumptive charity.
- C. The accounts deemed charity will be adjusted off and the remaining accounts will be referred to an outside collection agency.
- D. Once the agency has had the accounts for six months and has deemed them uncollectible, the accounts with balances of \$1,580 or greater will remain with the agency and be kept on the patient's credit file.
- E. The accounts returned to the hospital will be placed in a unique financial class and will not be pursued for collections.

Part VI, Line 2:

The organization assesses community need in conjunction with the state

affiliated county health departments and other local health care

organizations. See also Schedule H, Part V, Section B, lines 1-7.

Part VI, Line 3:

Information is available on the organization's website and at registration for patients. In addition, face-to-face financial counseling is available to patients and their families in the central business office.

patient care, medical education and research for the residents of

eastern North Carolina. The Brody School of Medicine has three

important goals: educating primary care physicians, making medical care

more readily available to the people of eastern North Carolina, and

providing opportunities to minority and disadvantaged students.

As a non-profit organization, ECU Health reinvests all excess of revenues over expenses in programs, services, and facilities that provide access to patient care and health services to the citizens of Eastern Carolina.

Overview of ECU Health Community Benefit Programs

1. Eastern North Carolina is comprised of 1.4 million people living in

14,000 square miles. Boundaries are from I-95 East to the coast, and
from the Virginia line down to and including Onslow County. The area is
largely rural and largely poor, with higher than state or national
average rates for poverty and uninsured. Health status indicators show
increased incidence of disease in the region, especially cancer, heart
disease and stroke. ECU Health determines priorities for target
populations by working in concert with medical and community agency
partners in ongoing assessment of the most pressing health care needs.

Many efforts over the past decade have focused on diabetes, pediatric
asthma, school health, injury prevention, access to care, nutrition
enhancement, physical activities and chronic disease screenings. Also,
special programs to manage the care of Medicaid enrollees, address
access to both medical care and medications for the uninsured, and
coordination of services for children with obesity have been

Determination of specific populations to address occurs when partners such as the North Carolina Department of Health and Human Services, local health departments, county coalitions, task forces, and physicians identify a quantifiable need, and community partners are engaged to work together

2. Funding for community health programs is obtained from both the operating funds of ECU Health entities and external grant-awarding organizations. The ECU Health Board annually provides financial support for the Community Benefit Initiatives program based within each ECU Health hospital. Funds are awarded to community agencies that successfully demonstrate both need and a well-designed plan to address one of the health priorities identified in the Community Health Assessment process. These funds are then awarded to community agencies that successfully demonstrate both need and a well-designed plan to address one of the Foundation's priority categories. In addition, each ECU Health hospital financially supports community health resources within its operating budget. Programs vary according to the hospital's financial ability and community need, but all include collaborative efforts with local health departments, including health screenings and education to targeted populations. ECU Health also has a successful track record of obtaining community health program support from external agencies that award grant funding to approve projects. The ECU Health Grants Office was established in 2008 and serves as the central point for grant mining, acquisition and management of grants awarded to ECU Health hospitals for community-based programs. Grant funds are

- 3. Community health priorities are determined following the completion of a Community Health Needs Assessment every three years. The Community Health Needs Assessment includes input from community members received through community surveys and focus group discussions, as well as a review of secondary health data. Community alliances, partners and organizations, including local health departments, participate in this review. A list of the most pressing health issues are compiled for each community and then prioritized following an assessment of current health resources to address the identified health issues. Established resources/coalitions and new partnerships are formed to address the identified health priorities.
- 4. Community health priorities are also established in response to a compelling need identified by health practitioners or community groups.

 ECU Health is fortunate to have a strong collaborative partnership with East Carolina University, and works closely with the schools within the Health Sciences Division, especially the Brody School of Medicine. BSOM is an active participant in almost every community health initiative, supporting the research and evaluation of these programs, and contributes to programs for the under and uninsured in multiple ways.

Form 990, Schedule H, Part VI, Line 5:

5a. Community Health Improvement Services: Community health improvement services are programs and services that meet an identified need and are offered to the community at little or no charge. ECU Health hospitals sponsor programs that improve access to health care for the underserved and enhance the identification and management of chronic diseases, such as cancer, diabetes and heart disease. Here are a few examples of these programs:

- Medical assistance programs for uninsured patients
- Support for Community Coalitions focused on Health
- Support of local Federally Qualified Health Center
- Support for Healthy Neighbors faith health partnership
- Support for school health partnerships
- 5b. Health Professional Education: Preparing future health care professionals is important to us. Our hospitals provide clinical settings for students of health professions, such as future physicians, nurses and other allied health professionals. We also support students through deferred forgivable loans and internships including resident

training, nursing clinic sites, allied health professionals, and

financial support of nursing programs.

5c. Research: East Carolina University (ECU) conducts research to

evaluate new treatments and protocols. These studies help health

professionals everywhere provide quality care to patients. ECU Health

supports this through various means including supporting the

Institutional Review Board at ECU and providing study sites.

5d. Financial and In-Kind Contributions: ECU Health donates money and in-kind services to community groups and activities that share our mission of improving health. They include Meals on Wheels, American Red Cross blood drives, medical supplies to emergency medical services, and free medications to qualifying patients. ECU Health hospitals are key partners in fundraising for organizations such as the United Way, American Heart Association, Juvenile Diabetes Association and the American Cancer Society.

5e. Community Building: Community-building activities include programs
that are not directly related to health care but address underlying
issues that impact the health of communities. Poverty, crime,
homelessness, workforce development and economic development all affect
the overall health of communities. ECU Health has provided support for
our local Chambers of Commerce, financial support for road
improvements, investments in communication infrastructure via
information technology connections, support for the Teen Leadership
Academy, recruitment of physicians to our rural communities, and
programs that encourage students to pursue health careers.
